1. INTRODUCTION 1
2. REVIEW OF LITERATURE 3
3. MATERIALS AND METHODS 33
4. RESULTS AND DISCUSSION 41

4.1. Response of fodder beet to soil application of nitrogen, phosphorus and potassium 41

4.1.1. Growth behavior 41

4.1.1.1. Root length 42

4.1.1.2. Root diameter 42

4.1.1.3. Ratio between root length and diameter 43

4.1.1.4. Number of leaves/plant 44

4.1.1.5. Leaves area/plant 49

4.1.1.6. Dry matter production 50

4.1.1.6.1. Root dry matter 55

4.1.1.6.2. Leaves dry matter 55

4.1.1.6.3. Dry matter of whole plant 57

4.1.1.6.4. Dry matter distribution 62

4.1.2. Fodder beet yield 67

4.1.3. Chemical composition 70

4.1.3.1. Mineral composition 74

4.1.3.1.1. Total nitrogen content 74

4.1.3.1.2. Phosphorus content 74

78

4.1.3.1.3. Potassium content ..... Pa
4.1.3.2. Carbohydrate content 81
4.1.3.2.1. Total sugars 85
4.1.3.2.2. Poly-saccharides 85
4.1.3.2.3. Total carbohydrate content 90
4.2. Response of fodder beet to foliar application of nitrogen and potassium 93
4.2.1. Growth Behaviour. 101
4.2.1.1. Root length 101
4.2.1.2. Root diameter 101
4.2.1.3. Ratio between root length and diameter.....103
4.2.1.4. Number of leaves/plant.....104
4.2.1.5. Leaves area/plant 109
4.2.1.6. Dry matter production 110
4.2.1.6.1. Root dry matter 114
4.2.1.6.2. Leaves dry matter 115
4.2.1.6.3. Dry matter of whole plant 117
4.2.1.6.4. Dry matter distribution 121
4.2.2. Fodder beet yield 127
4.2.3. Chemical composition..... 130
4.2.3.1. Mineral composition:..... 134
4.2.3.1.1. Total nitrogen content 134
4.2.3.1.2. Phosphorus content 138

4.2.3.1.3. Potassium content .....
4.2.3.2. Carbohydrate content.....
4.2.3.2.1. Total sugars 144
4.2.3.2.2. Poly-saccharides 144
4.2.3.2.3. Total carbohydrate content 148
4.3. Response of fodder beet to some specific growth regulators 151
4.3.1. Growth behaviour 155
4.3.1.1. Root length 155
4.3.1.2. Root diameter 155
4.3.1.3. Ratio between root length and diameter 156
4.3.1.4. Number of leaves/plant 157
4.3.1.5. Leaves area/plant 160
.....162
4.3.1.6. Dry matter production 165
4.3.1.6.1. Root dry matter 165
4.3.1.6.2. Leaves dry matter 167
4.3.1.6.3. Dry matter of whole plant 170
4.3.1.6.4. Dry matter distribution 175
4.3.2. Fodder beet yield 178
4.3.3. Chemical composition 181
4.3.3.1. Mineral composition 181
4.3.3.1.1. Total nitrogen content 181
4.3.3.1.2. Phosphorus content 185
4.3.3.1.3. Potassium content 188

Page

4.3.3.2. Carbohydrate content 191

4.3.3.2.1. Total sugars 191

4.3.3.2.2. Poly-saccarides 194

4.3.3.2.3. Total carbohydrate content 197
