### Welcome

On behalf of Egypt-Japan University of Science and Technology, we welcome you to the E-JUST International Conference of Advanced Science and Technology, which will be held from the 19th to the 21st of May 2015 in Alexandria, Egypt.

Egypt-Japan University of Science and Technology (E-JUST) is a research university with the ambition to cultivate an academic environment and become a benchmark for the Egyptian and African countries in education. It was first established as a bilateral agreement project between the Egyptian and Japanese governments in May 2009, after more than six years of discussions and preparations. The first batch of students was enrolled in 2010 and the dream became a reality.

Since the start of E-JUST all the efforts were done to make the university a role model for the graduate education and research institutions in Egypt by fostering the Japanese educational standards, policies, and systems. E-JUST is contributing in the enhancement and improvement of human resources in the region, by providing high level educational system and to offer pragmatic and innovative solutions for human needs. E-JUST believes that these trials have given large impact to higher education of Middle-east and African countries.

On occasion of the 5th anniversary of E-JUST, we will hold international conference to publish E-JUST's footprints and fruitful results and to discuss future state of higher education of science and technology in Middle-east and Africa.

We are looking forward to seeing you in Alexandria.

*Prof. Ahmed El-Gohary*  
Chair of ICIE 2015  
President of E-JUST

### Scope of Conference

This international conference will bring together a range of academics and practitioners to discuss future directions of higher education in Middle-East and Africa region and international and industry collaborations for innovative Engineering, which E-JUST has fostered from the beginning. Topics to be discussed are:

#### Session I: Promotion of Higher Education in Middle-East and Africa.

1. Engineering education in Africa, Middle-East and Asia.
2. Various supported research and education programs: Lessons and Networking.
3. Students' mobility S&T mobility in Africa: The needs and way to go !
4. Capacity Building for Higher Education Institutions in Africa for Science and Technology.

#### Session II: The Symposium on JICA projects and JST projects

#### Session III: The Symposium "From innovation to Industry": The E-JUST Five Years of Experiences

### Tentative Schedule

19th May	16:30~18:30 Opening Session
20th May	Plenary Session <b>Session I. Promotion of Higher Education in Middle-East and Africa.</b> Topics: <b>Session II. The Symposium on JICA projects and JST projects</b> JICA projects JST projects others
21st May	<b>Session III. The symposium on Innovation for the Industry:</b> The E-JUST Five Years of Experience.

### Conference Venue

The conference will be held in Bibliotheca Alexandrina, Library of Alexandria, which is a major library and cultural center located on the Mediterranean Seashore in the city of Alexandria. It is both a commemoration of the Library of Alexandria that was lost in antiquity, and an attempt to rekindle something of the brilliance that this earlier center of study and erudition represented.
