International Conference on Water Cooperation for Sustainable Development (WCSD)
 15 - 17th November 2013

The UN resolution to designate 2013 as the International Year of Water Cooperation (IYWC) recognizes that "water is critical for sustainable development." The IYWC aims to direct international attention towards the opportunities for water cooperation among communities and countries in order to solve the challenges of water management. Accordingly, the National Water Research Center (NWRC), Egypt, and the United Nations Educational, Scientific and Cultural Organization (UNESCO) Office in Cairo organize the International Conference on Water Cooperation for Sustainable Development in November 2013.

Conference Objectives:

- ▶ Promote water cooperation as multi-dimensional in nature and encapsulates cultural, educational and scientific factors, as well as ethical, social, legal, institutional and economic dimensions.
- ▶ Facilitate a multidisciplinary approach to grasp an understanding of the many facets implied by the concept of water cooperation and blend them into one holistic vision.
- ▶ Initiate a platform to develop a common understanding of the needs and challenges surrounding water cooperation issues.

Major Themes:

- Water conflict management mechanisms focusing on negotiation, mediation and decision-making to manage and resolve water conflicts.
 - Management of transboundary river basins and shared aquifer systems, including joint collection, assessment and dissemination, and monitoring of water related data.
 - Implementing regional and international agreements, and frameworks as well as existing mechanisms and modalities of water diplomacy.
 - National and international institutional and legal frameworks on the use, and sharing of water resources.
 - Best practices on financing cooperation initiatives which are adequate for different levels of water cooperation.
- Integration of ecohydrology and hydroengineering for sustainable water resources, ecosystems and societies through trans-boundary cooperation.

Call for Papers:

Authors are invited to submit abstract in English on any of the conference topics. Papers are classified as Oral or Poster presentation according to their relevance to the topics. Abstract should be a single page of maximum word count of about 500 words covering objectives of paper and indicating the main findings and conclusions. Abstract are prepared using single line spacing and Times New Roman font size 12. Abstracts should be sent as word documents to: sc-wcsd@nwrc-egypt.org

Registration Fee:

The costs of the registration fee include: full participation in the Conference, the Proceedings, a Conference-related bag, simultaneous interpretation, welcome drinks, refreshments during coffee breaks, and preparation, organization and realization of the Conference.
