Regional Conference Surveying & Development

Sharm El-Sheikh, Egypt

October 3 – 6, 2015

The Ministry of Water Resources and Irrigation (MWRI), The Arab Union of Surveyors (AUS), The National Water Research Center (NWRC), The Egyptian Committee for Surveying and Mapping (ECSM) and the Egyptian Survey Authority (ESA), cordially invite you to attend the Regional Conference entitled:

Surveying & Development

Sharm El-Sheikh, Egypt

October 3 – 6, 2015

This conference is an important opportunity for surveyors to meet, exchange experience, and discuss common issues of surveying and development. The event will cover the state of the art technologies in different working fields in our region. In addition, a number of high-profile international and regional speakers will be available to share their experience.

We're proud to announce that the conference will be held at one of the world's most prestigious touristic venues, the city of "Sharm El-Sheikh" overlooking the dazzling Red Sea, which at that time of the year is fascinating with its magnificent weather.

The 4-day event's main features include a technical program addressing the most recent theoretical, applied research and challenges facing surveyors with a special focus on Mega projects. Different topics will answer among others, the following important inquiries: How to keep the professional qualifications up to date, and what is the role of the modern technology in advancing our profession. The technical program will include several technical and plenary sessions, this is in addition to social, cultural and training activities.

Topics of Technical Sessions

- * Modern Technologies in Geodesy.
- * New Development in Cadaster
- * Urban and Rural Planning.
- * GIS and Remote Sensing applications.
- * Education and Capacity Building.
- * Professional Standards.
- * Geomatics and Mega projects.

Topics of Plenary Sessions

- * Surveyors and Mega Projects.
- * Spatial Data for Economic Development.
- * Ancient Egyptians and Modern Civilization.
- * Risk Management.
- * Surveyor's Role and Climate Change.

The Organizational Committee in charge of all the conference arrangements is led by a Steering Committee (headed by Prof. Dr. Mohamed Abdul Motaleb, President of the NWRC). The designated Scientific Committee will receive your abstracts,

Languages

The conference will be held in Arabic, English and French

Call for papers
