INTRODUCTION	1
REVIEW OF LITERATURE.....	5
1. Overview	1
2. Spoilage and pathogenic microorganisms in milk and milk products	6
3. Antimicrobial potential of lactic acid bacteria.....	10
3.1. Bacteriocins.....	12
3.1.1 Nisin	15
4. Isolation, classification and identification of lactic acid bacteria.....	28
5. Bacteriocin production.....	30
5.1: Bacteriocin production by Lactococcus strains...	30
5.2: Bacteriocin production by Lactobacillus strains..	40
6. Application of bacteriocin and bacteriocin-producing strains in fermented milk.....	51
MATERIALS AND METHODS.....	58
MATERIALS.....	58
METHODS.....	62
PART: I : Isolation, classification and identification of lactic acid bacteria (LAB) from raw milk samples.....	71

Introduction	71
Experimental.....	72
Results and Discussion	73
PART: II: Production and characterization of bacteriocins produced by isolated LAB from raw milk samples	92
Introduction	92
Experimental.....	94
Results and Discussion	95
PART: III: Use of bacteriocins produced by some LAB as natural preservative in yoghurt	129
Introduction	129
Experimental.....	130
Results and Discussion	132
SUMMARY AND CONCLUSION	179
REFERENCES	187
APPENDICES.....	227
ARABIC SUMMARY.....	-
