CONTENTS

INTRODUCTION

REVIEW OF LITERATURE

I. Growth Regulators
   I.1 Effect of Cytokinins
      I.1.1 Growth and Flowering
      I.1.2 Concrete or Oil Yield
      I.1.3 Plant Pigments
      I.1.4 Total Carbohydrates
      I.1.5 Nitrogen Percentage in Leaves
      I.1.6 Cell Differentiation and Bud Initiation
   I.2 Effect of Bg and Growth Retardent
      I.2.1 Growth and Flowering
      I.2.2 Concrete or Oil Yield
      I.2.3 Plant Pigments
      I.2.4 Total Carbohydrates
      I.2.5 Nitrogen Percentage in Leaves

II Effect of Nitrogen Fertilization
   II.1 Growth and Flowering
   II.2 Concrete or Oil Yield
   II.3 Plant Pigments
   II.4 Total Carbohydrates
   II.5 Nitrogen Percentage in Leaves

III The Yield and Oil Composition

MATERIAL AND METHODS

RESULTS AND DISCUSSION

I Vegetative Growth
   1 Growth Regulators
      a Effect of Kinetin
      a.1 Plant Height
a.2 Number of Canes per Plant
a.3 Fresh Weight of Canes per Plant
a.4 Dry Matter Percentage in Canes
a.5 Fresh Weight of Leaves per Plant
a.6 Dry Matter Percentage in Leaves

b. Effect of B9
b.1 Plant Height
b.2 Number of Canes per Plant
b.3 Fresh Weight of Canes per Plant
b.4 Dry Matter Percentage in Canes
b.5 Fresh Weight of Leaves per Plant
b.6 Dry Matter Percentage in Leaves

2. Effect of Nitrogen Fertilization
2.1 Plant Height
2.2 Number of Canes per Plant
2.3 Fresh Weight of Canes per Plant
2.4 Dry Matter Percentage in Canes
2.5 Fresh Weight of Leaves per Plant
2.6 Dry Matter Percentage in Leaves

3. Effect of Interaction between Growth Regulators and Nitrogen Fertilization
c. Combination between Kinetin and Nitrogen
c.1 Plant Height
c.2 Number of Canes per Plant
c.3 Fresh Weight of Canes per Plant
c.4 Dry Matter Percentage in Canes
c.5 Fresh Weight of Leaves per Plant
c.6 Dry Matter Percentage in Leaves
d. Combination between Bg and Nitrogen Fertilization
d.1 Plant Height
d.2 Number of Canes per Plant
d.3 Fresh Weight of Canes per Plant
d.4 Dry Matter Percentage in Canes
d.5 Fresh Weight of Leaves per Plant
d.6 Dry Matter Percentage in Leaves

II Flowering
II.1 Growth Regulators
   a. Effect of Kinetin
      a.1 Monthly and Yearly Yield of Flower
      a.2 Bud Developments
   b. Effect of B9 on
      b.1 Monthly and Yearly Yield of Flower
      b.2 Bud Developments

II.2 Effect of Nitrogen Fertilization
   2.1 Monthly and Yearly Yield of Flower
   2.2 Bud Developments

II.3 Effect of Interaction between Growth Regulators and Nitrogen Fertilization
   c. Effect of combination between Kinetin and Nitrogen Fertilization
      c.1 Monthly and Yearly Yield of Flower
      c.2 Bud Developments
   d. Effect of Combination between B9 and Nitrogen
      d.1 Monthly and Yearly Yield of Flower
      d.2 Bud Developments

III Chemical Analysis
   1. Growth Regulators
      a. Effect of Kinetin
         a.1 Concrete Percentage and Concrete Yield
         a.2 Plant Pigments
            1- Chlorophylls
            2- Carotenoids
         a.3 Total Carbohydrates
         a.4 Nitrogen Percentage in Leaves
      b. Effect of B9
         b.1 Concrete Percentage and Concrete Yield
         b.2 Plant Pigments
| 1. Chlorophylls                                | 138 |
| 2. Carotenoids                                 | 138 |
| b.3 Total Carbohydrates                        | 139 |
| b.4 Nitrogen Percentage in Leaves              | 141 |
| 2. Effect of Nitrogen                          | 144 |
| 2.1 Concrete Percentage and Concrete Yield     | 144 |
| 2.2 Plant Pigments                             | 148 |
| 1- Chlorophylls                                | 148 |
| 2- Carotenoids                                 | 149 |
| 2.3 Total Carbohydrates                        | 150 |
| 2.4 Nitrogen Percentage in Leaves              | 151 |
| 3. Effect of Interaction between Growth Regulators and Nitrogen Fertilization | 154 |
| c. Effect of combination between Kinetin and Nitrogen | 154 |
| c.1 Concrete Percentage and Concrete Yield     | 154 |
| c.2 Plant Pigments                             | 157 |
| 1- Chlorophylls                                | 157 |
| 2- Carotenoids                                 | 160 |
| c.3 Total Carbohydrates                        | 161 |
| c.4 Nitrogen Percentage in Leaves              | 161 |
| d. Effect of Combination between B9 and Nitrogen Fertilization | 164 |
| d.1 Concrete Percentage and Concrete Yield     | 164 |
| d.2 Plant Pigments                             | 167 |
| 1- Chlorophylls                                | 167 |
| 2- Carotenoids                                 | 169 |
| d.3 Total Carbohydrates                        | 170 |
| d.4 Nitrogen Percentage in Leaves              | 171 |
| 4. Chromatographic Analysis of Absolute Oil    | 174 |
| SUMMARY                                        | 179 |
| LITERATURE CITED                               | 186 |
| ARABIC SUMMARY                                 |     |
