PRELUDE

ABSTRACT

CHAPTER I

INTRODUCTION	1
1. Location	2
2. Scope of Work	2
3. Previous Work	5

CHAPTER II

GEOMORPHOLOGY	25
1. UPLANDS	30
1.1. Eocene Limestone Plateau	31
1.2. Scarps	33
1.3. El Malki Uplands	35
2. LANDFORMS OF DENUDATIONAL ORIGIN	36
2.1. Sandplains	36
2.2. Denudational Plateaus	37
2.3. Denudational Scarps	39
2.4. Denudational Depressions	41
2.5. Denudational Slopes	44
2.6. Denudational Hills	45
2.7. Denudational Ridges	45
2.8. Surface with Denudational Hummocks	46

II

	PAGE
3. LANDFORMS OF STRUCTURAL DENUDATIONAL ORIGIN	47
3.1. Landform Units Related to folded structures ..	47
3.2. Landforms Related to the Uplift of the Basement	50
3.3. Fault Blocks Landscape	51
3.4. Structural Depressions	52
3.5. Fault Line Scarps and Fault Scarps	54
3.6. Faulted Ridges	54
3.7. Lower Sandstone Plateau	55
3.8. Cluse Valley	55
3.9. Strike Valley	56
4. GLACIS	56
4.1. Front Slope Glacis	56
4.2. Piedmont Glacis	57
4.3. Valley Glacis	68
5. LANDFORMS OF FLUVIAL ORIGIN	59
5.1. Drainage Lines	60
5.2. Inverted Wadis	64
5.3. Alluvial Fans	68
5.4. Infilled Wadis	69
6. RESIDUAL HILLS	69
7. LANDFORMS OF VOLCANIC ORIGIN	73
7.1. Volcanic Dykes	73
7.2. Other Volcanic Forms	74
8. LANDFORMS OF AEOLIAN ORIGIN	75
8.1. Destructional Aeolian Landforms	76
8.2. Aeolian Depositional Landforms	80

III

CHAPTER III

STRATIGRAPHY	83
1. Introduction	83
2. The Basement Rocks	84
2.1. Aswan - Kalabsha Area	85
2.2. Gebel Um Shaghin Area	86
3. PALEOZOIC ROCKS	89
3.1. Devonian Wadi Malik Formation	90
3.2. Devonian and or older Sediments	92
3.3. The Gilf Formation	93
4. MESOZOIC ROCKS	99
4.1. The Abu Ballas Formation	99
4.2. The Sabaya Formation	103
4.3. The Bahariya Formation	108
4.4. The Nubia Formation	114
4.4.1. Introduction	114
4.4.2. Nubia Formation in the Study Area	123
4.4.2.1. Taref Sandstone Member	124
4.4.2.2. Quseir Clastic Member	131
4.4.3. Undifferentiated Nubia	139
4.5. The Duwi Formation	141
4.6. The Dakhla Formation	144
5. TERTARY	145
5.1. The Kurkur Formation.....	145
5.2. The Garra Formation	147
5.3. The Dungul Formation.....	148
5.4. The volcanic Rocks.	149
6. THE QUATERNARY DEPOSITS	151
6.1. Fluvial Deposits	154
6.2. Tufa Deposits	157
6.3. Fresh Water Limestone	158

IV

	PAGE
6.4. Calcite Deposits	158
6.5. Lake Deposits Plâyas	160
6.6. Lag Deposits	163
6.7. Aeolian Deposits	163

CHAPTER IV

STRUCTURE	166
1. NILE BLOCK	168
1.1. North Kalabsha Sub-block	169
a) Faults	169
b) Folds	175
c) Other Structures	177
d) Monoclines	177
1.2. South Kalabsha - Subblock	177
a) Faults	178
b) Folds	183
2. UM SHAGHIR BLOCK	184
a) Faults	184
b) Folds	190
c) Basement Uplift	193
d) Monoclines	194
3. UNCONFORMITY	194

CHAPTER V

LITHOFACIES AND ENVIRONMENT of DEPOSITION	197
1. PRE WADI MALIK FORMATION	197
a) Lithofacies	197
b) Sedimentary Structures	199
c) General Environmental Interpretation	199

	PAGE
2. WADI MALIK FORMATION	200
a) Lithofacies	200
b) Sedimentary Structures	202
c) General Intironmental Interpretation	202
3. THE GILF FORMATION	203
a) Lithofacies	203
b) Diagnostic Features and Sedimentary Structures .	204
c) General Environmental Interpretation	205
4. THE ABU BALAS FORMATION	205
a) Lithofacies	205
b) Diagnostic Features and Sedimentary Structures .	207
c) General Environmental Interpretation	208
5. TH SABAYA FORMATION	209
a) Lithofacies	209
b) Diagnostic Features and Sedimentary Structures	210
c) General Environmental Interpretation	211
6. THE BAHARIYA FORMATION	212
a) Lithofacies	212
b) Diagnostic Features and Sedimentary Structures	213
c) General Environmental Interpretation	213
7. THE NUBIA FORMATION	214
7.1. THE TAREF SANDSTONE MEMBER.....	214
a) Lithofacies	214
b) Diagnostic Features and Sedimentary Structures	216
c) General Environmental Interpretation	216

VI

	PAGE
7.2. QUSEIR CLASTIC MEMBER	217
a) Lithofacies	217
b) Diagnostic Features and Sedimentary Structures	219
c) General Environmental Interpretation	220
7.3. KAOLIN DEPOSITS	221
a) Concretionary Laterite Zone	222
b) White Plastic Kaolin Zone	224
c) Genetic Interpretation of the Kaolin Deposits	225
