| INTRODUCTION . . . . .                                          | 1    |
| REVIEW OF LITERATURE . . . . .                                  | 3    |
| I. Growth attributes . . . . .                                  | 3    |
| 1. Effect of water stress . . . . .                             | 9    |
| 2. Varietal differences . . . . .                               | 14   |
| 3. Effect of zinc . . . . .                                     | 18   |
| II. Yield and yield components . . . . .                        | 18   |
| 1. Effect of water stress . . . . .                             | 22   |
| 2. Varietal differences . . . . .                               | 25   |
| 3. Effect of zinc . . . . .                                     | 29   |
| III. Chemical composition . . . . .                             | 29   |
| 1. Effect of water stress . . . . .                             | 31   |
| 2. Varietal differences . . . . .                               | 33   |
| 3. Effect of zinc . . . . .                                     | 34   |
| IV. Soil-water relations . . . . .                              | 34   |
| 1. Water consumptive use . . . . .                              | 38   |
| 2. Soil moisture extraction pattern . . . . .                   | 40   |
| 3. Water use efficiency . . . . .                               | 42   |
| 4. Crop coefficient (Kc) . . . . .                              | 44   |
| MATERIALS AND METHODS . . . . .                                 | 57   |
| RESULTS AND DISCUSSION . . . . .                                | 57   |
| I. Growth attributes . . . . .                                  | 57   |
| Effect of years . . . . .                                       | 59   |
| 1. Dry matter accumulation and distribution/plant . . . . .     | 63   |
| 2. Leaf area/plant and leaf area index . . . . .                | 66   |
| 3. Chlorophyll content . . . . .                                | 70   |
| 4. Crop growth rate . . . . .                                   | 72   |
| 5. Relative growth rate . . . . .                               | 73   |
| 6. Net assimilation rate . . . . .                              | 74   |
| 7. Time of silking . . . . .                                    | 76   |
| 8. Height of plant and ear . . . . .                            | 78   |
| 9. Stem diameter . . . . .                                      | 80   |
| Effect of the interactions . . . . .                            | 87   |
| II. Yield and yield components . . . . .                        | 87   |
| Effect of years . . . . .                                       | 89   |
| 1. The percentage of plants carried more than one ear . . . . . | 90   |
| 2. Late wilt disease . . . . .                                  | 92   |
| 3. Ear characters . . . . .                                     | 94   |
| 4. 100-grain weight . . . . .                                   | 96   |
| 5. Grain yield/plant . . . . .                                  | 98   |
| 6. Grain yield kg/feddan . . . . .                              | 101  |
| 7. Straw yield/feddan . . . . .                                 | 104  |
| Effect of the interactions . . . . .                            | 109  |
| III. Chemical composition . . . . .                             | 109  |
| 1. Crude protein percentage and protein yield/feddan . . . . .  | 111  |
| 2. Oil percentage and oil yield/feddan . . . . .                | 114  |
| 3. Zinc content in grains . . . . .                             | 116  |
| Effect of the interactions . . . . .                            | 122  |
| IV. Soil-water relations . . . . .                              | 122  |
| 1. Consumptive use . . . . .                                    | 134  |
| 2. Water use and yield relationship . . . . .                   | 135  |
| 3. Water uptake by maize roots . . . . .                        | 139  |
| 4. Water use efficiency . . . . .                               | 142  |
| 5. Crop coefficient (Kc) . . . . .                              | 148  |
| V. Simple phenotypic correlations . . . . .                     | 151  |
| SUMMARY . . . . .                                               | 168  |
| LITERATURE CITED . . . . .                                      |      |
| ARABIC SUMMARY . . . . .                                        |      |
