ABSTRACT	11
I. INTRODUCTION	12
II. REVIEW OF LITERATURE	14
- Variation, genetic parameters and heritability.....	14
- Inter-relationships among lentil characters	35
III. MATERIALS AND METHODS	49
- Genetic materials and field process	49
- Planting of F ₄ families	50
- Planting of F ₅ families.....	51
- Statistical analysis	52
IV. RESULTS AND DISCUSSION	54
1- Mean Performance of the F ₃ base population	54
2- Mean values, variability and selection response.....	54
2.1. F ₄ generation.....	54
2.1.1. Mean Performance of F ₄ families	54
2.1.2. Response to selection.....	66
2.1.3. Estimates of genetic parameters.....	69
2.1.4. Inter-relationships among studied characters.....	80
2.2. F ₅ generation.....	88
2.2.1. Mean Performance of F ₅ families	88
2.2.2. Response to selection.....	106
2.2.3. Estimates of genetic parameters.....	107
