

CONTENTS

	Page
I. INTRODUCTION	1
II. REVIEW OE LITERATURE.....	3
II.A-Effect of water deficit on growth, physiological processes and yield of wheat genotypes	3
II.B-Effect of salinity on growth and yield of wheat genotypes	11
II.C-Genetic parameters studies under different irrigation regimes and salinity effects.....	13
III. MATERIALS AND METHODS	27
IV. RESULTS AND DISCUSSION	40
A- The First study (F ₁ generation).....	41
A. 1. Growth, yield and yield components	41
A. 1.1. Analysis of variance, means and heterosis	41
A. 1.2. Combining ability	61
A. 2. Drought measurements	78
A. 2.1. Analysis of variance, means and heterosis	78

A.2.2. Heterosis.....	86
A. 2.3. Combining ability.....	92
A. 3.Susceptibility index (SI)	103
A. 3.1. Analysis of variance, means and heterosis	103
A.3.2. Heterosis.....	108
A. 3.3. Combining ability	111
B- The second study (F2 generation)	117
B. 1.Growth, yield and yield components.....	118
B.1.1. Analysis of variance, means and heterosis	118
B.1.2. Combining ability	127
V. SUMMARY.....	137
VI. REFERENCES.....	150
ARABIC SUMMARY	-
