INTRODUCTION.....	1
REVIEW OF LITERATURE.....	3
I. Effect of intercropping	3
1- Faba bean.....	3
2- Sugar beet.....	5
II. Effect of sowing date on faba bean	9
III. Effect of plant density on faba bean	12
IV. Effect of nitrogen fertilizer on sugar beet.....	18
V. Effect of nitrogen fertilizer on faba bean.....	28
VI. Competitive relationships	29
MATERIALS AND METHODS	32
RESULTS AND DISCUSSION	41
1. Effect of sowing date of faba bean on sugar beet	41
1.1 Effect of sowing date of faba bean on some growth characters of sugar beet after 5 months from sowing	41
1.1.1 Number of leaves	41
1.1.2 Root length and diameter	41
1.1.3 Fresh weight of leaves, roots and total plant fresh weight.....	43
1.1.4 Dry weight of leaves, roots and total plant dry weight	44
1.2 Effect of sowing date of faba bean on some growth characters of sugar beet after 6 months from sowing	45
1.2.1 Number of leaves	45
1.2.2 Root length and diameter	45
1.2.3 Fresh weight of leaves, roots and total plant fresh weight.....	47
1.2.4 Dry weight of leaves, roots and total plant dry weight	48

1.3 Effect of sowing dates of faba bean on growth, yield And yield components of sugar beet at harvest.....	49
1.3.1 Root length and root diameter	49
1.3.2 Fresh weight of leaves, root/plant and total fresh weight/plant	51
1.3.3 Top yield/fed	53
1.3.4 Root yield /fed	54
1.3.5 Biological yield/fed.....	55
1.3.6 Sugar yield/fed.....	55
1.3.7 Effect of sowing date of faba bean on technological quality of sugar beet	56
2. Effect of faba bean plant density on sugar beet.....	57
2.1. Effect of faba bean plant density on growth characters of sugar beet plant after 5 months from planting	57
2.1.1. Number of leaves/plant	57
2.1.2. Root length and diameter.....	57
2.1.3. Fresh weight of leaves, root and total plant fresh weight.....	59
2.1.4. Dry weight of leaves, root and total plant dry weight	60
2.2. Effect of faba bean plant density on sugar beet growth after 6 months of sugar beet planting	61
2.2.1. Number of leaves /plant.....	62
2.2.2. Root length and diameter.....	62
2.2.3. Fresh weight of leaves, root and total/ plant.....	64
2.2.4. Dry weight of leaves, root and total/plant	65
2.3. Effect of plant density of faba bean on some growth, traits yield and yield components of sugar beet at harvest.....	67
2.3.1. Root length and diameter	67
2.3.2. Fresh weight of leaves, root and total/plant.....	69
2.3.3. Top yield / fed.....	69
2.3.4. Root yield / fed	70
2.3.5. Biological yield / fed.....	71
2.3.6. Sugar yield/ fed.....	71
2.3.7. Effect of plant density of faba bean	

CONTENTS

on technological quality of sugar beet	72
3. Effect of nitrogen fertilization on some growth characters of sugar beet.....	72
3.1. Effect of nitrogen fertilization on growth characters at 5 months from sugar beet planting	72
3.1.1. Number of leaves/plant.....	72
3.1.2. Root length and diameter.....	74
3.1.3. Fresh weight of leaves, root and total fresh weight /plant	75
3.1.4. Dry weight of leaves, roots and total plant dry weight	77
3.2. Effect of nitrogen fertilization on growth characters at 6 months of sugar beet planting.....	78
3.2.1. Number of leaves	78
3.2.2. Root length and diameter	78
3.2.3. Fresh weight leaves, root and total/plant	80
3.2.4. Dry weight of leaves, roots and total plant dry weight	82
3.3. Effect of nitrogen fertilizer on some yield and yield components at harvest of sugar beet.....	83
3.3.1. Root length and diameter.....	83
3.3.2. Fresh weight of leaves, root and total/plant	85
3.3.3. Top yield/fed	87
3.3.4. Root yield /fed	88
3.3.5. Biological yield/fed	89
3.3.6. Sugar yield/fed.....	89
3.3.7. Effect of nitrogen fertilizer on technological quality of sugar beet.....	90
4. Effect of sowing date on yield and yield component of faba bean	91
4.1. Plant height.....	91
4.2. Number of branches/plant	93
4.3. Number of pods/ plant	93
4.4. Number of seeds/pods	94
4.5. Number of seeds/plant.....	94
4.6. Seed yield/ plant	95

CONTENTS-----

4.7. Straw yield/plant.....	96
4.8. Weight of 100-seeds (gm)	96
4.9. Harvest index.....	97
4.10. Seed yield /fed	97
4.11. Straw yield/fed.....	98
4.12. Biological yield/fed	98
5. Effect of plant density on yield and yield components of faba bean	99
5.1. Plant height	99
5.2. Number of branches / plant	101
5.3. Number of pods/ plant	102
5.4. Number of seeds/pod	102
5.5. Number of seeds/plant.....	103
5.6. Seed yield/plant	103
5.7. Straw yield/plant	104
5.8. Weight of 100 seeds (gm).....	105
5.9. Harvest index.....	105
5.10. Seed yield /fed	106
5.11. Straw yield/fed.....	106
5.12. Biological yield/fed	107
6. Effect of nitrogen levels on yield and yield components of faba bean.....	108
6.1. Plant height.....	108
6.2. Number of branches /plant	110
6.3. Number of pods/plant	110
6.4. Number of seeds/pods	111
6.5. Number of seeds/plant.....	111
6.6. Seeds yield/plant.....	112
6.7. Straw yield/plant.....	112
6.8. 100-seeds weight	113
6.9. Harvest index percentage	113
6.10. Seed yield /fed	113
6.11. Straw yield/fed	114
6.12. Biological yield/fed	114
7. Effect of intercropping faba bean with sugar beet on yield, yield components and technological quality of sugar beet..	115

CONTENTS

7.1. Root length and diameter.....	115
7.2. Fresh weights of leaves, root and total/plant fresh weight	118
7.3. Top yield/fed.....	118
7.4. Root yield/fed	119
7.5. Biological yield / fed	120
7.6. Sugar yield/fed.....	120
7.7. Technological quality of sugar beet	121
8. Effect of intercropping faba bean with sugar beet on yield and yield components of faba bean at harvest	121
8.1. Plant height	121
8.2. Number of branches/plant	125
8.3. Number of pods and seeds/pod.....	125
8.4. Number of seeds / plant.....	125
8.5. Seed yield/plant	126
8.6. Straw yield/plant	126
8.7. Weight of 100- seeds	127
8.8. Harvest index.....	128
8.9. Seed yield /fed	128
8.10. Straw yield / fed.....	129
8.11. Biological yield /fed	129
9. Effect of interaction between sowing date and plant density on growth character of sugar beet	130
9.1. After 5 month from sowing sugar beet.....	130
9.2. After 6 month from sowing sugar beet.....	132
9.3. Yield and yield components	134
9.4. Technological quality of sugar beet	136
10. Effect of interaction between sowing date and nitrogen fertilizer on some growth characters of sugar beet	138
10.1. After 5 months from sowing sugar beet	138
10.2. After 6 months from sowing sugar beet	123
10.3. Yield, yield components and technological quality of sugar beet at harvest	143
11. Effect of interaction between plant density of faba bean and nitrogen fertilize on some growth characters, yield and	

CONTENTS

yield components and technological quality of sugar beet	144
11.1. After 5 months from sowing sugar beet	144
11.2. After 6 months from sowing sugar beet	146
11.3. At harvest of sugar beet	146
12. Effect of interaction between sowing date, plant density and nitrogen fertilizer on some growth characters of sugar beet	149
12.1. After 5 months from sowing sugar beet	149
12.2. After 6 months from sowing sugar beet	151
12.3. On fresh weight of leaves/plant, top, biological and sugar yield/fed and technological quality of sugar beet.....	153
13. Effect of interaction between sowing date, plant density and nitrogen fertilizer on yield and yield component on faba bean	156
13.1. Effect of interaction between sowing date and plant density of faba bean.....	156
13.2. Effect of interaction between sowing date and nitrogen fertilizer of faba bean	160
13.3. Effect of interaction between plant density and nitrogen fertilizer on faba bean	162
13.4. Effect of interaction between sowing date, plant density and nitrogen fertilizer on faba bean	162
14. Competitive relationships and yield advantage	166
14.1. Land equivalent Ratio (L.E.R.)	166
14.2. Relative Crowding Coefficient (R.C.C.)	168
14.3. Aggressivity (A)	171
14.4. Cereal units and economic evaluation	173
14.4.1. Cereal units (CU).....	173
14.4.2. Gross return/fed:	175
