INTRODUCTION	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS.....	37
RESULTS AND DISCUSSION.....	44
I. Growth characters	44
A. Effect of planting dates.....	44
B. Effect of potassium fertilization.....	47
C. Effect of boron fertilization.....	51
D. Effect of the interaction.....	54
a. Effect of the interaction between planting dates and potassium fertilization	54
b. Effect of the interaction between planting dates and boron fertilization.....	57
c. Effect of the interaction between potassium and boron fertilization.....	60
d. Effect of the interaction between planting dates, potassium and boron fertilization	64
II. Yield and yield components characters.....	69
A. Effect of planting dates	69
B. Effect of potassium fertilization.....	73
C. Effect of boron fertilization.....	78

D. Effect of the interaction.....	83
a. Effect of the interaction between planting dates and potassium fertilization.....	83
b. Effect of the interaction between planting dates and boron fertilization.....	88
c. Effect of the interaction between potassium and boron fertilization.....	91
d. Effect of the interaction between planting dates, potassium and boron fertilization	96
III. Fiber properties	102
A. Effect of planting dates.....	102
B. Effect of potassium fertilization.....	104
C. Effect of boron fertilization.....	107
D. Effect of the interaction.....	109
a. Effect of the interaction between planting dates and potassium fertilization.....	109
b. Effect of the interaction between planting dates and boron fertilization	112
c. Effect of the interaction between potassium and boron fertilization.....	115
d. Effect of the interaction between planting dates, potassium and boron fertilization.....	118
IV. Chemical analysis.....	122
A. Effect of planting dates	122

i. In the leaves after 15 days from the last spraying treatment.....	122
ii. In mature seeds	125
B. Effect of potassium fertilization.....	126
i. In the leaves after 15 days from the last spraying treatment.....	126
ii. In mature seeds.....	129
C. Effect of boron fertilization.....	131
i. In the leaves after 15 days from the last spraying treatment.....	131
ii. In mature seeds.....	134
D. Effect of the interaction.....	135
a. Effect of the interaction between planting dates and potassium fertilization.....	135
i. In the leaves after 15 days from the last spraying treatment.....	135
ii. In mature seeds	139
b. Effect of the interaction between planting dates and boron fertilization	139
i. In the leaves after 15 days from the last spraying treatment.....	139
ii. In mature seeds	143
c. Effect of the interaction between potassium and boron fertilization.....	143

i. In the leaves after 15 days from the last spraying treatment.....	143
ii. In mature seeds.....	147
d. Effect of the interaction between planting dates, potassium and boron fertilization.....	148
i. In the leaves after 15 days from the last spraying treatment.....	148
ii. In mature seeds.....	152
