

**CONTENTS**

Subject	Page
<b>- INTRODUCTION .....</b>	<b>1</b>
<b>- REVIEW OF LITERATURE .....</b>	<b>3</b>
I- Effect of Chemical Weed Control on : .....	4
1- Weed growth .....	4
2- Wheat growth .....	14
3- Chlorophyll and carotenoids .....	19
4- Wheat yield and its components . .....	23
II- Effect of Wheat Cultivars on : .....	32
1- Weed growth .....	32
2- Wheat growth .....	33
3- Wheat yield and its components . .....	39
III- Effect of Nitrogen Fertilization on : .....	46
1- Weed growth. ....	46
2- Wheat growth . ....	47
3- Chlorophyll and carotenoids . ....	54
4- Wheat yield and its components . ....	56
IV - Effect of Interaction Between : .....	62
1- Weed control treatments and wheat cultivars . ....	62
2- Weed control treatments and nitrogen fertilization ...	66
3- Wheat cultivars and nitrogen fertilization . ....	70
4- Weed control and wheat cultivars and nitrogen fertilization .....	74

<b>- MATERIAL AND METHODS .....</b>	<b>75</b>
I. Weed control treatments : .....	75
II. Cultivars .....	78
III. Nitrogen Fertilization Rates . ....	78
I. Weed Survey . ....	79
II. Growth of Wheat Characters . ....	79
III. Chlorophyll Analysis . ....	80
IV. Yield and Yield Components . ....	80
<b>- RESULTS AND DISCUSSION .....</b>	<b>82</b>
I.1. Effect of Weed Control Treatments on Weed Growth .....	82
I.1.2. Effect of Weed Control Treatments on Fresh and Dry Weight of Weeds . ....	82
I.2. Effect of Weed Control Treatments on Wheat Growth ..	87
I.2.2. Effect of Weed Control Treatments on Weight of Different Plant Parts of wheat .....	92
I.3. Effect of Weed Control Treatment on Chlorophyll and Carotenoids Content of wheat leaves .....	97
I.4. Effect of Weed Control Treatments on Yield and Yield Components of Wheat . ....	102
II.1. Effect of Wheat Cultivars on Fresh and Dry Weight of Weeds : .....	112
II.2. Effect of Wheat Cultivars on wheat Growth. ....	115
II.3. Fresh and Dry Weight of different plant parts g / m <sup>2</sup> .....	115

II.4. Effect of wheat cultivars on chlorophyll and carotenoids .....	118
II.5. Effect of Wheat cultivars on , Yield and Yield Components. ....	118
III.1. Effect of Nitrogen Fertilization on Fresh and Dry Weight of Weeds .....	129
III.2. Effect of Nitrogen Fertilizer Levels on Wheat Growth . ....	132
III.3. Effect of nitrogen fertilizer levels on chlorophyll and carotenoids .....	136
III.4. Effect of nitrogen fertilizer levels on yield and yield components. ....	138
IV . Effect of the interaction between chemical weed control and wheat cultivars. ....	154
IV. Effect of interactions between weed control treatment and nitrogen fertilization . ....	162
IV.3. Effect of the interaction between nitrogen levels and the wheat cultivars . ....	170
IV. Effect of the interaction between chemical weed control , wheat cultivars and nitrogen rates .....	187
- SUMMARY .....	193
- REFERENCES .....	221
- ARABIC SUMMARY .....	

## LIST OF TABLE

Table No.	Page
(1) Mechanical and chemical soil analysis of the experimental farm for two seasons. ....	76
(2) Weed control treatments .....	77
(3) Effect of weed control treatments on fresh and dry weight of weeds g / m <sup>2</sup> at three sampling dates in 1997 / 98 and 1998/99 seasons.....	86
(4) Effect of weed control treatments on plant height, spike length (cm), No. of leaves, stalks and spikes/m <sup>2</sup> , at three growth stages of wheat in 1997 / 98 and 1998 / 99 seasons .....	91
(5) Effect of weed control on fresh and dry weights of different plants organs, leaves, stalks, spikes and total weight of plants g/m <sup>2</sup> at three growth stages of wheat in 1997 / 98 and 1998 / 99 seasons.....	98
(6) Effect of weed control treatments on Chlorophyll A, B, total Chlorophyll and carotenoids mg / g at 80 and 101 days from sowing in 1997 / 98 and 1998 / 99 seasons.....	99
(7) Effect of weed control treatments on wheat yield and yield components in 1997 / 98 and 1998 / 99 seasons. ....	105

(8)	Effect of two wheat varieties on fresh and dry weight of weeds $\text{g/m}^2$ at different growth stages in 1997/98 and 1998/99 seasons .....	114
(9)	Effect of two wheat varieties on plant height, spike length (cm) number of leaves, stalks and spikes / $\text{m}^2$ and at three growth stages in 1997/ 98 and 1998 / 99 seasons .....	116
(10)	Effect of two wheat varieties on fresh and dry weights of different plant parts, leaves, stalks and spikes at three growth stages in 1997 / 98 and 1998 / 99 seasons. ....	117
(11)	Effect of wheat cultivars on chlorophyll and carotenoids in wheat leaves (Mg / G.D.W.) at 80 and 101 days from planting in 1997/98 and 1998 / 99 seasons	120
(12)	Effect of wheat cultivars on yield and yield components in 1997/98 and 1998/99 seasons.....	121
(13)	Effect of nitrogen levels on fresh and dry weight of weeds at different growth stages of wheat plants in 1997 / 98 and 1998 / 99 seasons.....	131
(14)	Effect of nitrogen fertilization on number of leaves, stalks spikes / $\text{m}^2$ plant height and spike length at three sampling date of wheat in 1997/98 and 1998/99 seasons .....	133

(15)	Effect of nitrogen fertilization on fresh and dry weight of leaves, stalks and spike at three growth stages of wheat in 1997/98 and 1998/99 seasons .....	135
(16)	Effect of nitrogen fertilizer levels on chlorophyll and carotenoids in wheat leaves Mg/g at 80 and 101 days from sowing in 1997/98 and 1998/99 seasons .	137
(17)	Effect of nitrogen fertilization on yield and yield components of wheat grown in 1997/98 and 1998/99 seasons .....	144
(18)	Effect of interaction of weed control treatments and wheat cultivars on dry weight of weeds G. D.W. / m <sup>2</sup> at 60 days from sowing in 1997/98 and at 60 and 121 days from sowing in 1998 / 99 .....	155
(19)	Effect of interaction of weed control treatments and wheat cultivars on total fresh weight and Total dry weight of plants (g / m <sup>2</sup> ) at 80, 101 and 121 days from sowing in 1998 / 99 season .....	156
(20)	Effect of interaction of weed control treatments and wheat cultivars on some wheat growth characters at 121 dys from sowing in 1997 / 98 and 1998/99 seasons .....	158
(21)	Effect of interaction of weed control treatments and wheat cultivars on chlorophyll A, B, Total chlorophyll (A + B) and Carotenoids at 80 and 101 days from sowing in 1997 / 98 and 1998/99 seasons (Mg / g) .	160

(22)	Effect of interaction of weed control treatments and wheat cultivars on wheat yield and its components in 1997 / 98 and 1998/99 seasons .....	161
(23)	Effect of interaction of weed control treatments and Nitrogen fertilization on fresh and Dry weight of weeds G./m <sup>2</sup> at 90 and 121 days after sowing in 1997 / 98 and 1998/99 seasons .....	163
(24)	Effect of significant interaction of weed control treatments and nitrogen fertilization on some wheat growth characters after 121 days from sowing in 1997 / 98 and after 101, 121 days from sowing in 1998/99 season .....	164
(25)	Effect of interaction of weed control treatments and Nitrogen fertilization on Chlorophyll A, Total Chlorophyll and carotenoids at 80 days from sowing in 1997 / 98 and on Chlorophyll B at 101 days from sowing in 1998/99 Mg / g .....	167
(26)	Effect of interaction of weed control treatments and Nitrogen fertilization on wheat yield and its components in 1997 / 98 and 1998/99 seasons .....	168
(27)	The interaction effect of nitrogen levels and the two grown wheat cultivars on some growth characters at 121 days after sowing in 1997/98 season .....	172

- |      |   |     |
|------|---|-----|
| (28) | The interaction effect of cultivars and Nitrogen fertilizer levels on wheat yield and some yield components in 1997/ 98 season .....  | 176 |
| (29) | The interaction effect of nitrogen levels and the two grown wheat cultivars on some growth characters at 121 days after sowing in 1998/99 season .....  | 180 |
| (30) | The interaction effect of two grown wheat cultivars and the nitrogen levels on wheat yield and some its components in 1998/99 season .....  | 185 |
| (31) | Effect of interaction of weed control treatments, cultivars and nitrogen rates on some wheat growth characters at 121 days from sowing in 1997/98 and at 80, 121 days from sowing in 1998 / 99 season .....                 | 190 |
| (32) | Effect of interaction of weed control treatments, cultivars and nitrogen rates on Chlorophyll A and Carotenoids at 101 days from sowing in 1997/98 and on carotenoids at 80, 101 days from sowing in 1998 / 99 season ..... | 191 |
| (33) | Effect of interaction of weed control treatments, cultivars and nitrogen rates on No. of spikelets/ spike and grains weight/spike in 1997/98 season. ....   | 192 |
