	Page
Table (13): Changes in fruit juice total soluble solids (T.S.S.) percentage of Amaal apricot cv. in response to some postharvest treatments during cold storage at "5°C" in 1988 and 1989 seasons. ....	94
Table (14): Changes in fruit juice total soluble solids (T.S.S.) percentage of Amaal apricot cv. in response to some postharvest treatments during cold storage at "0°C" in 1988 and 1989 seasons. ....	95
Table (15): Changes in fruit juice total acidity percentage of Amaal apricot cv. as affected by some postharvest treatments stored under room condition during 1988 and 1989 seasons...	98
Table (16): Changes in fruit juice total acidity percentage of Amaal apricot cv. in relation to some postharvest treatments during cold storage at "5°C" in 1988 and 1989 seasons. ....	100
Table (17): Changes in fruit juice total acidity percentage of Amaal apricot cv. as affected by some postharvest treatments under cold storage at 0°C in 1988 and 1989 seasons. ....	101
Table (18): Fruit juice T.S.S./acid ratio of Amaal apricot cv. as affected by some postharvest treatments during storage under room condition 1988 and 1989 seasons. ....	103

Table (19): Fruit juice T.S.S./acid ratio of Amaar apricot cv. in relation to some postharvest treatments during cold storage at "5°C" in 1988 and 1989 seasons. ....	106
Table (20): Fruit juice T.S.S./acid ratio of Amaar apricot cv. in response to some postharvest treatments during cold storage at "0°C" in 1988 and 1989 seasons. ....	107
Table (21): Fruit juice total sugar % of Amaar apricot cv. as affected by some postharvest treatments during storage under room condition in 1988 and 1989 seasons... ..	111
Table (22): Fruit juice total sugars percentage of Amaar apricot cv. in response to some postharvest treatments during cold storage at "5°C" in 1988 and 1989 seasons. ....	112
Table (23): Fruit juice total sugars percentage of Amaar apricot cv. in response to some postharvest treatments under cold storage at "0°C" in 1988 and 1989 seasons. ....	113
Table (24): Mechanical damage percentage of Balady guava fruits in relation to type of transporting containers used during 1988 and 1989 seasons. ....	116
Table (25): Effect of some postharvest treatments on fresh weight loss percentage of Balady guava fruits stored under room condition during 1988 and 1989 seasons. ....	120

Table (26): Effect of some postharvest treatments on periodical fresh weight loss percentage of Balady guava fruits stored at "15°C" during 1988 and 1989 seasons. ... ..	123
Table (27): Effect of some postharvest treatments on periodical fresh weight loss percentage of Balady guava fruits stored at "10°C" during 1988 and 1989 seasons. ... ..	124
Table (28): Discarded fruits percentage of Balady guava in relation to some postharvest treatments during storage under room condition in 1988 and 1989 seasons. ... ..	129
Table (29): Discarded fruits percentage of Balady guava in relation to some postharvest treatments during cold storage at "15°C" in 1988 and 1989 seasons. ... ..	130
Table (30): Discarded fruits percentage of Balady guava in relation to some postharvest treatments during cold storage at "10°C" in 1988 and 1989 seasons. ... ..	131
