Content of trace elements in peat-bog soil and response of long-fiber flax to them.

Agrokhimiya, 7: 106-10.

(c.f. Soils and Fert. Abst., 29 (6): 4384).

Shchibraev, N. S. and Tyurin, A. S. 1970.

Effect of mineral fertilizers on productivity of oil seed flax.

Izv. Kwbyshev. Sel.-khoz. Inst 26 (1): 141-145.

(c.f. Field Crop Abst., 24 (1) : 1156).

Shekhawat, G. S.; Jain, M. M. and Sharma, D. C. 1971.

Response of linseed (Linum usitatissimum) to micro-nutrients under varying fertility levels in barani (rain-fed) condition.

Indian J. of Agron., 16 (1): 64 - 66.

Simota, H. 1970.

Application of fertilizers to oilseed flax on carbonate chestnut chernozem in Dobragsa.

Analele institutului de Cercetare Pentru Cereale Si plant Technice, Fundulea (B) 36: 41-419.

(c.f. Field Crop Abst., 25 -(3): 4225).

Sin, G.; Pintilie, C.; Nicolae, H.; Sarpe, N.; Mihaila, V.
and Zahan, R. 1975.

Effect of some agronomic techniques on the yield
of flax crops.

Productia Vegetala, Cereale si Plante tehnice
27 (10): 7-13.

(c.f. Field Crop Abst., 29 (10): 712).

Singh, G. B.; Sandhu, R.S.; Sethi, I. K. and Arora, S. K.
1968.

Effect of graded doses of nitrogen on yield and
quality of linseed in the punjab hills.

J. Res. Punjab.-agric. Univ. 8(3): 342-6.

(c.f. Field Crop Abst., 23 (1): 642).

singh, K. D. 1968.

Studies on the effect of varying levels of nit-
rogen and dates of sowing on yield and aquality
of linseed.

Indian J. Agron., 13 (4): 215-18.

Singh, R. A. and Singh, H. R. 1978.

Effect of N and P on yield, quality and moisture-
use pattern of linseed grown on rainfed lands.

Indian J. of Agric. Sci., 48 (10): 583-88.

Singh, S. P., Rajput, R. K. and Singh, M. P. 1966.

Response of linseed to nitrogen and phosphate
fertilization in the alluvial soil of Narbada
Valley.

Indian J. Agron., 11 (1): 27-29.

Snedecor, G. W. 1956.

Statistical methods.

5 th Ed. Iowa state Univ. Press, Ames, Iowa
U.S.A. pp 534.

Spratt, E. D. and Smid, A. E. 1978.

Yield and elemental composition of Flax as
affected by P and micro-nutrients.

Agron, J., 70 (4) : 633 - 638.

Stetsenko, V. A. and Chepikov, M. S. 1970

Micro fertilizers for fiber flax on peat-bog
soils.

Len Konop. 4: 41- 42.

(c.f. Field Crop Abst., 24 (1): 1113).

Street, H. E. and Cockburn, W. 1972.

The synthesis of fatty acids.

Plant metabolism, Second Edition.

The English Language Book Society and Pergamon
press Oxford.

Szymanck, J. 1962.

The effect of fertilizing on the technological
qualities of flax.

C.R. Acad. Agric., Fr. 48: 551 -557.

(c.f. Soils and Fert. Abst., 25 (6) : 3619).

Tikhomirova, V. Ya. 1968.

Effect of urea-formaldehyde on yield and quality of fiber-flax.

Agrokhimiya, 4 : 10 - 15.

(c.f. Field Crop Abst., 21 (4) : 2750).

----- 1971.

On N nutrition of fiber flax.

Turdy. Usesoyuznyi Institut L'na, 9 : 170 -8.

(c.f. Field Crop Abst., 25 (3) : 4190).

Tokuoka, M. and Morooka, H. 1939.

Effect of nitrogen fertilizers of the urea type on winter wheat.

J. Soc. Trop. Agr., Taihoku Imp. Univ. 10:
166 - 175.

(c.f. Chem. Abst., 33 (12) : 4730).

Tserling, V. V., Zinkevich, A. S. and Tikhomirova, V. Ya. 1975.

Chemical diagnosis of fiber plant nutrition.

Vestnik Sel'skokhozyaistvennoi Nauki, Moscow, USSR.

(c.f. Field Crop Abst., 29 (1) : 462).

Vasilenko, M. G. and Tkachenko, D. F. 1976.

Fertilization of fiber flax after red clover.

Leni Konoplya, 9 : 23 - 24.

(c.f. Field Crop Abst., 30 (2): 1147).

Vasilica, M. and Vasilica, C. 1976.

Contributions to the study of optimising rates of N fertilizer as a means of production in the cultivation technology of flax for fiber.
Lucrari Stiintifice, Institutul Agronomic 'Ion Ionescu.
de la Brad' Iasi, Agronomie-Horticultura : 51-52.
(c.f. Field Crop Abst., 32 (12): 8893).

Velcev, V. and Belevska, P. 1964.

Concerning the manuring of fiber flax with mineral fertilizers on leached chernozem soils in the Tolbuhin area.
Rastenievadni Nauki, Sofia, 1 (8):103-111.
(c.f. Field Crop Abst., 18 (2):928).

Warsi, A. S. 1968.

N.P.K.-manuring of linseed in Bundelkhand.
Indian Agric., 12(2):125-130.

Yayock, J. Y. and Quinn, J. G. 1977.

Agronomy of linseed oil cultivars (Linum usitatissimum) in northern Nigeria.
Experimental Agric. 13 (1): 93-100.
(c.f. Field Crop Abst., 30 (10) : 6376).

Yermanos, D. M.; Hall, B. L. and Burge, W. 1964.

Effect: of iron chelates and nitrogen on safflower and flax seed production and oil content and quality.
Agron. J., 56 (6): 582-85.

Yurshis, I. A. 1976.

Changes in chemical composition and quality of fiber and plants of fiber flax given various fertilizer rates.

Referativnyi Zhurnal 10, 55 : 716.

(c.f. Field Crop Abst., 30 (4): 2318).

Zajcerav R. V. 1962.

Effect of growing conditions on the agriculturally valuable characteristics of flax.

Fibra, 7 (1): 29 -35.
