INTRODUCTION	1
REVIEW OF LITERATURE	3
- Effect of planting methods	3
- Effect of thinning dates	11
- Effect of intensity and time of replanting	19
MATERIALS AND METHODS	27
RESULTS AND DISCUSSION	37
FIRST STUDY	37
GROWTH AND YIELD OF MAIZE AS AFFECTED BY METHOD OF PLANTING AND THINNING DATE	37
I- EFFECT OF PLANTING METHODS ON THE GROWTH CHARACTERS, YIELD AND YIELD COMPONENTS OF MAIZE	38
1. Effect of planting methods on the growth characters	
1.1. Root dry weight	38
1.2. Tasseling and silking dates	40
1.3. Plant height	42
1.4. Ear position	43
1.5. Stem diameter	43
1.6. Leaf area	43
2. Effect of planting methods on the yield and yield components	44
2.1. Ear length	44
2.2. Ear diameter	46
2.3. Number of rows/ear	46
2.4. Number of kernels/ear	46
2.5. Ear weight	46
2.6. Number of ears/plant	46
2.7. Number of harvested plants	47

	Page
2.8. Grain yield/plant	47
2.9. Shelling percentage	49
2.10. Weight of 100 kernels	49
2.11. Grain yield per feddan	49
II - EFFECT OF THINNING DATES ON THE GROWTH CHARACTERS, YIELD AND YIELD COMPONENTS OF MAIZE	51
1. Effect of thinning dates on the growth characters	51
1.1. Root dry weight	51
1.2. Tasseling and silking dates	53
1.3. Plant height	53
1.4. Ear position	53
1.5. Stem diameter	55
1.6. Leaf area	55
2. Effect of thinning dates on yield and yield components	56
2.1. Ear length	56
2.2. Ear diameter	56
2.3. Number of rows/ear	58
2.4. Number of kernels/ear	58
2.5. Ear weight	59
2.6. Number of ears/plant	59
2.7. Number of harvested plants.....	61
2.8. Grain yield/plant	62
2.9. Shelling percentage	63
2.10. Weight of 100 kernels	63
2.11. Grain yield per feddan	64
III - INTERACTION EFFECT OF PLANTING METHODS AND THINNING DATES	67

	Page
SECOND STUDY	69
GROWTH AND YIELD OF MAIZE AS AFFECTED BY INTENSITY AND TIME OF REPLANTING	69
I. Effect of intensity and time of replanting on the growth characters	70
1. Tasseling and silking dates	70
2. Plant height and ear position	74
3. Stem diameter	76
4. Leaf area.....	77
II. Effect of intensity and time of replanting on yield and yield components	80
1. Ear characters	80
2. Number of ears/plant	86
3. Grain yield/plant	90
4. Shelling percentage	92
5. Weight of 100 kernels	93
6. Grain yield per feddan	94
SUMMARY	104
