

CONTENTS

	Page
I- INTRODUCTION	1
II- REVIEW OF LITERATURE	2
1- Nitrogen Fertilizer	2
2- Heterosis	9
3- Combining Ability	14
4- Association Studies	26
III- MATERIALS AND METHODS	32
IV- RESULTS AND DISCUSSION	43
1- Agronomic Attributes	43
2- Yield and Yield Components	71
A- Heterosis	76
B- Combining Ability	78
3- Association Studies	106
A- Simple Phenotypic Correlation	106
B- Linear Regression	107
C- Path Coefficient Analysis	107
4- Prediction of Double Cross Yield	121
V- SUMMARY	123
VI- LITERATURE CITED	129

ARABIC SUMMARY
