

	Page
B. Growth attributes	69
1. Leaf area index	69
2. Leaf area ratio	70
3. Leaf weight ratio	71
4. Specific leaf area	72
5. Crop growth rate	73
6. Net assimilation rate	74
7. Relative growth rate	75
II. Effect of Nitrogen Levels on Growth Parameters of Sugarbeet Plants	<u>77</u>
A. Growth analysis	77
1. Plant height	77
2. Root length	78
3. Root diameter	<u>79</u> ←
4. Fresh weight of blades/plant	80
5. Fresh weight of petioles/plant	81
6. Fresh weight of leaves/plant	<u>82</u>
7. Fresh weight of root/plant	<u>83</u> ←
8. Total fresh weight of plant	84
9. Dry weight of blades/plant	86
10. Dry weight of petioles/plant	87
11. Dry weight of leaves/plant	88
/12. Dry weight of root/plant	<u>89</u> ←
13. Total dry weight of plant	90
14. Leaf area/plant	<u>92</u>

	Page
B. Growth attributes	93
1. Leaf area index	93
2. Leaf area ratio	93
3. Leaf weight ratio	95
4. Specific leaf area	96
5. Crop growth rate	97
6. Net assimilation rate	98
7. Relative growth rate	<u>99</u>
III. Effect of the Interaction between Plant Spacing and Nitrogen levels	100
1. Root diameter	100
2. Fresh weight of petioles	101
3. Fresh weight of root/plant	103
4. Dry weight of blades/plant	104
5. Dry weight of petioles/plant	105
6. Leaf area index	107
7. Specific leaf area	108
8. Net assimilation rate	109
IV. Yield and Yield Attributes	111
A. Effect of plant spacing	111
1. Root yield	111
2. Top yield	113
3. Gross sugar yield	113
4. Sugar production	116

	Page
B. Effect of nitrogen levels	118
1. Root yield	118
2. Top yield	120
3. Gross sugar yield	122
4. Sugar production	124
C. Effect of the interaction between plant spacing and nitrogen levels	126
V. Root Characters	127
A. Effect of plant spacing	127
1. Root length	127
2. Root diameter	128
3. Root weight	129
B. Effect of nitrogen levels	130
1. Root length	130
2. Root diameter	131
3. Root weight	132
C. Effect of the interaction between plant spacing and nitrogen levels	133
VI. Yield Quality	134
A. effect of plant spacing	134
1. Total soluble solids	134
2. Sucrose content percentage	135
3. Apparent purity percentage	136
4. Impurities: alpha-amino-nitrogen, potassium and sodium contents	137

	Page
B. Effect of nitrogen levels	139
1. Total soluble solids	139
2. Sucrose content percentage	140
3. Apparent purity percentage	142
4. Impurities: alpha-amino-nitrogen, potassium and sodium contents	143
C. Effect of the interaction between plant spacing and nitrogen levels	146
