

CONTENTS

Title	Page
1. INTRODUCTION	1
2. REVIEW OF LITERATURE	5
I- Effect of different applied treatments	5
- On seed germination	5
II- Effect of nutrients	7
1- On vegetative growth	7
2- On reproductive growth and chemical composition	12
3- On N, P and K percentages and contents, crude protein, total carbohydrates	27
III- Effect of growth regulators on growth characters	28
IV- Effect of growth inhibitors on certain metabolic aspects....	28
V- Effect of separated growth regulators	28
1- On vegetative growth	28
2- On reproductive growth and chemical composition	31
VI- Effect of certain applied treatments on the endogenous hormonal profile	33
3- MATERIALS AND METHODS	35
4- RESULTS AND DISCUSSION	52
I- Laboratory experiments	52
Germination process	52
II- Pot experiments	55
II.1. Seedling emergence	55
II.2. Root growth	55
II.2.1. Root length	55
II.2.2. Root diameter	58
II.2.3. Root size	59

Title	Page
II.3. Shoot measurements	60
II.3.1. Plant length	60
II.3.2. Stem length	63
II.3.3. Number of leaves	65
II.3.4. Number of branches	67
II.4.1. Leaves characteristics	71
II.4.2. Absolute growth rate	73
II.4.3. Net assimilation rate	75
II.4.4. Photosynthetic pigments	76
II.5. Histological studies	78
II.5.1. Anatomy of the roots	78
II.5.2. Anatomy of the shoots	84
II.6. Phytohormones determination	92
- Effect of certain treatments on the endogenous phytohormones profile	92
II.7. Flowering	107
II.8. Fruiting	109
II.8.1. Fruit setting	109
II.8.2. Fruit number	111
II.8.3. Biological, economical yields and the harvest index	113
III- Field experiments	116
1- Number of capsules / plant	116
2- Weight of intact capsule	116
3- Weight of seeds / capsule	118
4- Weight of empty capsule	119

Title	Page
5- Weight of capsules / plant	119
6- Seeds number / capsule	119
7- Weight of seeds per plant	120
- Fruit characteristics	121
1- Weight of intact capsule	121
2- Seeds number per capsule	121
3- Weight of seeds / capsule	123
4- Weight of empty capsule	123
5- Relation of seeds weight to the weight of empty capsule	124
6- Weight of 100 seeds	125
- Capsule measurements	126
1- Capsule diameter and length	126
2- Capsule size	128
3- Number of loculs	128
4- Fruit shape index	129
- Essential and fixed oils	130
- Chemical analysis	134
- Chemical composition of shoots	134
5- SUMMARY AND CONCLUSION	138
6- REFERENCES	150
7- ARABIC SUMMARY	-
