	Page
1. INTRODUCTION	1
2. REVIEW OF LITURATURE	3
2.1. Fertilization treatments effect	3
2.2. Combining ability	6
2.2.1. Choice of parents for hybridization in self- pollinated crops	6
2.2.2. Diallel cross as a means for choice of parents ...	8
2.2.3. Combining ability over environments	9
2.2.4. General (GCA) vs. specific (SCA) combining ability	10
2.3. Heterosis	16
3. MATERIALS AND METHODS	21
IV- RESULTS AND DISCUSSION	35
4.1. Heterosis and combining ability	35
4.1.1. Analysis of variance and means	35
4.1.2. Heterosis	46
4.1.3. Combining ability variance	55
4.1.4. General combining ability effects	61
4.1.5. Specific combining ability effects	68
4.2. Genetic components of variation	75
4.3. Fertilizer Susceptibility index	82
4.3.1. Mean performance	82
4.3.2. Combining ability of variance	91
4.3.3. General combining ability effects	93
4.3.4. Specific combining ability effects	96
V- SUMMARY	103
VI- REFERENCES	109
VII- ARABIC SUMMARY
