REVIEW OF LITERATURE	3
I- Intercropping cotton with some field crops.	3
II- Intercropping maize with some field crops..	14
MATERIALS AND METHODS	25
RESULTS AND DISCUSSIONS.....	37
I- Effect of intercropping cotton and maize on growth, some agronomic characters and yield components of cotton...,....,	37
1- Plant height.....	37
2- Number of fruiting branches per plant..	41
3- Number of open bolls per plant.....	43
4- Boll weight (gm).....	45
5- Seed yield cotton per plant (gm).....	46
6- Seed index (gm).....	48
7- Lint percentage.....	48
II- Effect intercropping cotton and maize on seed cotton yield, stand and earliness percentage of cotton.....	49
1- Seed cotton yield (kg/ fad.).....	49
a- Actual yield	49
b- Adjusted yield.....	53
2- Percentage of surviving cotton plants at piking.....	55
3- Earliness percentage.....	56
III- Effect of intercropping cotton and maize on some growth characters and yield components of maize	58
1- Plant height.....	58
2- Area of the topmost ear leaf (cm ²).....	61
3- Number of ears per plant.....	62
4- Ear weight (gm).....	64
5- Weight of 100 kernels (gm).....	65

IV- Effect of intercropping on maize grain yield and stand at harvest.....	67
1- Grain yield per plant (gm).....	67
2- Grain yield (kg/ faddan).....	71
a- Actual yield.....	71
b- Adjusted yield	73
3- Percentage of surviving plants at harvest.....	75
V- Effect of intercropping on some agronomic characters in maize	77
1- Percentage of barren plants.....	77
2- Percentage of lodged and broken plants.	81
3- Percentage of smut infested plants.....	82
4- Percentage of late wilt infested plants	83
VI- Effect of intercropping on weed density....	84
1- Weed density after 35 days from planting	84
2- Weed density after 50 days from planting	84
VII- Effect of intercropping on competitive re- lationships and yield advantage.....	88
1- Land equivalent ratio.....	88
a- First experiment.....	88
b- Second experiment	91
2- Relative crowding coefficient.....	93
a- First experiment.....	93
b- Second experiment.....	94
3- Aggressivity	95
a- First experiment.....	95
b- Second experiment.....	96
