INTRODUCTION	1
REVIEW OF LITERATURE	2
I. Effect of sowing date on growth, yield and chemical composition of forage sorghum.	
II. Effect of some varieties on growth, yield and chemical composition of forage sorghum.	
III. Effect of seeding rate on growth, yield and chemical composition of forage sorghum.	
MATERIALS AND METHODS.....	32
RESULTS AND DISCUSSION	41
I. Effect of sowing date on the growth yield and chemical composition of sorghum.....	41
A. Effect on growth characters.....	41
1. Plant height.....	41
2. Stems diameter.....	41
3. Number of stems/m ²	44
4. Number of leaves/plant	44
5. Leaf area index (LAI).....	45
6. Dry weight of plant organs:.....	45
6.1. Dry weight of leaves/plant.....	45
6.2. Dry weight of stems/plant	46
6.3. Dry weight /plant	46

	Page

B. Effect on Yield:	47
1. Fresh forage yield:	47
2. Dry forage yield:	49
3. Protein yield.....	50
C. Effect on chemical composition.....	52
1. Protein percentage	52
2. Carbohydrate percentage	52
3. Hydrocyanic acid content (HCN).....	55
II. Effect of varieties on the growth, yield and chemical composition of sorghum.....	56
A. Effect on growth characters	56
1. Plant height	56
2. Stem diameter	56
3. Number of stems/m ²	59
4. Number of leaves / plant	59
5. Leaf area index (LAI).....	60
6. Dry weight of plant organs	60
6.1. Dry weight of leaves/plant	60
6.2. Dry weight of stems/plant	61
6.3. Dry weight of whole/plant.....	61
B. Effect on yield	63
1. Fresh forage yield :	63
2. Dry forage yield	63
3. Protein yield.....	65

	Page

C. Effect on chemical composition.....	65
1. Protein percentage	69
2. Carbohydrate percentage	69
3. Hydrocyanic acid content (HCN).....	70
III. Effect of seeding rates on the growth, yield and chemical composition of sorghum.....	71
A. Effect on growth characters.....	71
1. Plant height.....	71
2. Stem diameter	74
3. Number of stems/m ²	74
4. Number of leaves/plant	75
5. Leaf area index (LAI).....	76
6. Dry weight of plant organs	76
6.1. Dry weight of leaves/plant.....	76
6.2. Dry weight of stems/plant	77
6.3.. Dry weight /plant	77
B. Effect on yield.....	78
1. Fresh forage yield.....	78
2. Dry forage yield	80
3. Protein yield.....	80
C. Effect on chemical composition	81
1. Protein percentage	81

	Page
	<u>----</u>
2. Carbohydrate percentage	85
3. Hydrocyanic acid content (HCN).....	85
IV. Effect of the interactions:	86
1. Effect on the interaction between varieties	86
and sowing dates.....	86
2. Effect of the interaction between sowing	
dates and seeding rates.....	86
3. Effect of the interaction between	
varieties and seeding rates.....	89
4. Effect of the interaction between sowing	
dates, varieties and seeding rates.....	91
