I. INTRODUCTION	1
II. REVIEW OF LITURATURE	4
2.1. Chemical composition	4
2.1.1. Proximate chemical composition	4
2.1.1.1. Luncheon	4
2.1.1.2. Beefburger	7
2.1.1.3. Ground meat.....	10
2.1.2. Sodium nitrite.....	12
2.2. Chemical freshness tests.....	15
2.2.1. Luncheon.....	15
2.2.2. Beefburger.....	17
2.2.3. Ground meat.....	18
2.3. Minerals composition.....	18
2.3.1. Luncheon.....	18
2.3.2. Beefburger.....	20
2.3.3. Ground meat.....	21
2.4. Microbiological examination.....	22
2.4.1. Luncheon.....	22
2.4.2. Beefburger.....	24
2.4.3. Ground meat.....	27
2.5. Fatty acids composition.....	32
2.5.1. Luncheon.....	32
2.5.2. Beefburger.....	32
2.5.3. Ground meat.....	34
MATERIALS AND METHODS.....	35
3.1. Materials.....	35
3.2. Methods.....	35
3.2.1. Analytical methods.....	35
3.2.1.1. Chemical analysis.....	35
3.2.1.2. Determination of caloric value.....	35
3.2.2.3. Determination of sodium chloride.....	36
3.2.1.4. Freshness tests.....	36
3.2.1.5. Determination of pH value.....	36
3.2.1.6. Identification and determination of fatty acids	36
