<i>Subject</i>	<i>Page</i>
<b>I- INTRODUCTION.....</b>	<b>1</b>
<b>2- REVIEW OF LITERATURE.....</b>	<b>5</b>
2.1. Chemical composition of raw materials.....	5
2.1.1. Fresh fruits.....	5
2.1.1.1. Guava.....	5
2.1.1.2. Apricot.....	6
2.1.1.3 Dry date.....	8
2.1.1.4. Orange.....	10
2.1.1.5. Lime.....	11
2.1.2. Fresh vegetables.....	12
2.1.2.1. Carrot.....	12
2.1.2.2. Garden-rocket.....	15
2.1.3. Oil seeds.....	16
2.1.3.1. Peanut.....	16
2.1.3.2. Sesame. ....	16
2.1.4. Legumes.....	16
2.1.4.1. Lupine seeds.....	16
2.1.4.2. Lentil.....	18
2.1.4.3. Fenugreek.....	18
2.1.5 Dry yeast.....	20
<b>2.2. Recommended dietary allowances of vitamins and minerals.....</b>	<b>21</b>
<b>2.3. Vitamins and minerals deficiency.....</b>	<b>28</b>
2.3.1. Vitamins and its deficiency.....	28
2.3.1.1. Vitamins B <sub>2</sub> , B <sub>6</sub> , B <sub>12</sub> and folic acid.....	28
2.3.1.2. Vitamin A as well as carotenoids.....	33
2.3.1.3. Vitamin C (Ascorbic acid).....	37
2.3.2. Minerals and its deficiency.....	38

4.3.2.4. Organoleptic evaluation of formulated food mixtures No. 2/1 and 2/2.....	<b>100</b>
4.3.2.5. Biological evaluation of formulated food mixtures as source to compensate the deficiency of minerals calcium and phosphorus...	<b>102</b>
a) Body weight gain .....	<b>102</b>
b) Organs weight/body weight ratio.	<b>104</b>
c) Biochemical parameters of blood.	<b>106</b>
1) Liver function enzymes (GPT/ALT) and (GOT/AST) in blood serum of rats fed on different diets.....	<b>106</b>
2) Blood glucose and total cholesterol of rats fed on different diets.....	<b>108</b>
3) Calcium and phosphorus in blood serum of rats fed on different diets.....	<b>111</b>
4.3.3. Type No. 3: (Formulated food mixtures as source to compensate the deficiency of iron and vitamins B <sub>12</sub> and folic acid).....	<b>113</b>
4.3.3.1. Chemical composition of the formulated food mixtures of type No. 3	<b>113</b>
4.3.3.2. Vitamins content of the formulated food mixtures No. 3/1 and 3/2.....	<b>116</b>
4.3.3.3. Minerals content of the formulated food mixtures No. 3/1 and 3/2.....	<b>118</b>
4.3.3.4. Microbiological examination of the formulated food mixtures No. 3/1 and 3/2.....	<b>120</b>

3.3.3.5. Organoleptic evaluation of the formulated food mixtures No. 3/1 and 3/2. ....	121
4.3.3.6. Biological evaluation of formulated food mixtures as source to compensate the deficiency of mineral iron.....	123
a) Body weight gain.....	123
b) Organs weight / body wight ratio	127
c)Biochemical parameters of blood	127
1)Liver function enzymes (GPT/ALT) and (GOT/AST) in blood serum of rats fed on different diets. ....	129
2)Blood glucose and total cholesterol of rats fed on different dits.....	121
3) Iron content of blood serum of rats fed on experimental diets.....	131
4)Effect of formulated food mixtures No. 3/2 as source of iron on blood picture of rats.....	132
4.3.4. Type No.4. (Formulated food mixtures as source to compensate the deficiency of vitamin B <sub>6</sub> ).....	135
4.3.4.1. Chemical composition of the formulated food mixtures of type No. 4.....	135
4.3.4.2. Vitamin B <sub>6</sub> content of the formulated food mixtures No. 4/1,4/2,4/3 and 4/4.....	140

4.3.4.3. Minerals content of the formulated food mixtures No. 4/1,4/2,4/3 and 4/4.....	142
3.3.4.4. Microbiological examination of the formulated food mixtures No.4/1,4/2,4/3 and 4/4.....	144
4.3.4.5. Organoleptic evaluation of the formulated food mixtures No. 4/1,4/2,4/3 and 4/4.....	146
4.3.5. Type No. 5. (Formulated food mixtures as source to compensate the deficiency of vitamin A).....	149
4.3.5.1. Chemical composition of the formulated food mixtures of type No. 5.....	149
4.3.5.2. Vitamin A content of formulated food mixtures No. 5/1 and 5/2.....	153
4.3.5.3. Minerals content of formulated food mixtures No. 5/1 and 5/2.....	155
4.3.5.4. Microbiological examination of formulated food mixtures No. 5/1 and 5/2.....	157
3.3.5.5. Organoleptic evaluation of formulated food mixtures No. 5/1 and 5/2.....	158
4.3.6. Type No. 6. (Formulated food mixtures as source to compensate the deficiency of vitamin C).....	161
4.3.6.1. Chemical composition of the formulated food mixtures of type No. 6.....	161

4.3.6.2. Vitamin C content of the formulated food mixtures No. 6/1,6/2 and 6/3.....	<b>165</b>
4.3.6.3. Minerals contents of the formulated food mixtures No. 6/1,6/2 and 6/3.....	<b>167</b>
4.3.6.4. Microbiological examination of the formulated food mixtures No. 6/1,6/2 and 6/3.....	<b>169</b>
3.3.6.5. Organoleptic evaluation of the formulated food mixtures No. 6/1,6/2 and 6/3.....	<b>170</b>
- SUMMARY.....	<b>173</b>
- CONCLUSION .....	<b>191</b>
- REFERENCES.....	<b>193</b>
- ARABIC SUMMARY.....
