

TABLE OF CONTENTS

Title	Page
ABSTRACT	i
LIST OF TABLES.....	ii
LIST OF FIGURES.....	iv
1.INTRODUCTION.....	1
AIM OF INVESTIGATION.....	5
2. REVIEW OF LITERATURE.....	6
2.1. Part I Sardine fish.....	6
2.1.1- Chemical composition of sardine fish.....	6
2.1.2- Freshness test of sardine fish.....	7
2.1.3-Microbiological load of sardine fish.....	9
2.2 Part II Pastirma.....	10
2.2.1-Chemical composition of pastirma	10
2.2.2- Freshness test of pastirma	12
2.2.3-Microbiological load of pastirma	14
2.3.Biogenic amines.....	14
2.3.1- Definition.....	14
2.3.2- Biogenic amines formation.....	17
2.3.3 Factors effecting formation of biogenic amines.....	19
2.3.3.1- Effect of raw materials and hygiene.....	19
2.3.3.2- Effect of time and temperature.....	21
2.3.3.3- Effect of pH value.....	24
2.3.3.4- Effects of food processing on the biogenic amines content....	26
2.3.3.5- Effects of gamma irradiation on the biogenic amines content.	27
2.3.4- Symptomatology of histamine poisoning.....	30
2.3.5- Foods Incriminated in histamine poisoning.....	31
2.3.6- Toxicity of biogenic amines.....	33
2.3.7- Regulatory limits of histamine in foods.....	39

2.4. Microorganisms producing biogenic amines.....	41
2.5. Determination and detection of biogenic amines in food.....	49
2.6. Effect of gamma irradiation on the sensory evaluation.....	51
2.6.1- Fish.....	51
2.6.2- Pastirma.....	52
III.Materials & Methods.....	53
3.1.1. Fish samples.....	53
3.1.2. Pastirma samples.....	53
3.1.3.1- Chemicals.....	53
3.1.3.2 - Medium.....	45
3.2.1. Technological methods.....	45
3.2.2.1. Storage of sardine fish.....	55
3.2.2.2. Storage of pastirma.....	55
3.2.3. Irradiation process.....	55
3.2.4.Chemical analysis.....	58
3.2.5. Physical properties.....	59
3.2.6. Microbiological examination.....	59
3.2.7. Determination of biogenic amines.....	61
IV.Results and Discussion.....	65
Part I Sardine fish.....	65
Part II Pastirma.....	111
V.SUMMARY.....	157
VI.REFERENCES.....	164
VII.APPENDEX	
LIST OF ABBREVIATIONS	193
VIII.ARABIC SUMMARY.....	٦ - ١
