	Page
1. INTRODUCTION.....	1
2. AIM OF THE WORK.....	5
3. REVIEW OF LITERATURE.....	7
3.1. Technology and processing.....	7
3.1.1. Processing flow diagram of some tomato products.....	8
3.1.2. Processing flow diagram of cherry and apricot products.....	8
3.2. Heat transfer and their importance and effect on rheological and mechanical properties of food.....	10
3.3. Basics of food rheology.....	11
3.3.1 Types of flow behaviour and their importance in food processing.....	13
3.3.2 Rheological properties of tomato products.....	13
3.3.2.1. Rheological behaviour of tomato ketchup.....	13
3.3.2.1.1. Shear rate rheological behaviour.....	18
3.3.2.1.2. Oscillatory rheological behaviour.....	19
3.3.2.2. Effect of storage on rheological properties of tomato ketchups	20
3.3.2.3. Effect of tomato ketchup composition on viscosity and role of starch on rheological properties of tomato ketchup.....	23
3.3.2.4. Rheological properties of tomato juice, puree and concentrate.....	26
3.3.2.5. The activation energy and effect of temperature on flow behavior of tomato ketchup and tomato products.....	29
3.3.3. Rheological behaviour of cherry puree and nectar.....	30
3.3.4. Rheological behaviour of apricot products.....	32
3.3.5. Chemical and sensory properties of tomato ketchup.....	35
3.3.6. Some characters of cherry fruits.....	36
3.4. Mechanical properties of raw material.....	36
3.4.1. Mechanical properties of tomato fruits.....	43
3.4.2. Mechanical properties of cherry fruits.....	49
3.4.3. Effect of temperature on mechanical properties of cherry fruits.....	50
3.4.4. Mechanical properties of apricot fruit.....	53
4. MATERIALS AND METHODS.....	53
4.1. Materials.....	53
4.1.1. Fresh materials.....	54
4.1.2. Prepared and process raw materials.....	54
4.2. Methods.....	54
4.2.1. Analytical methods.....	54

4.2.2.	Rheological measurements.....	57
4.2.2.1.	Shear rate examinations.....	57
4.2.2.2.	Oscillation tests.....	59
4.2.2.3.	Effective viscosity.....	60
4.2.2.4.	Thixotropic behaviour.....	61
4.2.2.5.	Activation energy and the effect of temperature on viscosity.....	61
4.2.3.	The effect of storage time and temperature on rheological behavior of tomato ketchups.....	61
4.2.4.	Mechanical properties measurements.....	61
4.2.4.1.	Measurement of mechanical properties of tomato fruits.....	62
4.2.4.2.	Measurement of mechanical properties of cherry fruits.....	63
4.2.4.3.	Measurement of mechanical properties of apricot fruits.....	63
4.2.5.	Heat treatment of fruit and mechanical parameters measurement.....	64
4.2.6.	Sensory evaluation.....	64
4.2.7.	Statistical analysis.....	64
5.	RESULTS AND DISCUSSION.....	69
5.	Tomato.....	69
5.1.	Physical properties and chemical composition.....	69
5.1.1.	Physical properties and chemical composition of some commercial tomato ketchups.....	69
5.1.2.	Effect of storage at different temperature and different time on some chemical and physical properties of tomato ketchups.....	72
5.1.3.	Some chemical and physical properties of tomato puree, juice, paste.....	74
5.1.4.	Chemical composition of tomato fruits.....	76
5.2.	Sensory evaluation of some tomato ketchups.....	76
5.3.	Rheological properties of some commercial tomato ketchups.....	78
5.3.1.	Shear rate examination.....	78
5.3.2.	Effective viscosity.....	85
5.3.3.	Activation energy and the effect of temperature on viscosity of tomato ketchups.....	89
5.3.4.	Oscillation tests	90
5.3.5.	Effect of storage at different temperature and different time on rheological properties of tomato ketchups.....	95
5.3.6.	Effect of storage duration and temperature on effective viscosity (η_{eff}) of tomato ketchups.....	110
5.3.7.	Effect of storage for 6-month on rheological behavior of tomato ketchup	111
5.3.8.	Effect of storage at different temperature and different time on activation energy of tomato ketchups.....	112

5.4.	Rheological properties of some commercial tomato products.....	115
5.4.1.	Shear rate examinations.....	115
5.4.2.	Oscillation tests.....	118
5.4.3.	Activation energy and the effect of temperature on viscosity of tomato products.....	123
5.5.	Mechanical properties of tomato fruit.....	124
5.5.1.	Effect of storage at different temperature on mechanical properties of tomato fruit	124
5.5.2.	Effect of heat treatment on mechanical properties of tomato fruit	129
5.6	Cherry.....	133
5.6.	Physical and chemical properties of some cherry products.....	133
5.7	Sensory evaluation of some cherry products.....	133
5.8	Rheological behaviour of some cherry products at different temperatures.....	134
5.9	Activation energy and the effect of temperature on viscosity of some cherry products.....	140
5.10	Mechanical properties of cherry fruits.....	140
5.10.1.	Effect of varieties and storage at different temperatures on mechanical properties.....	140
5.10.2.	Effect of heat treatment on mechanical properties of cherry fruits.....	148
5.11	Apricot.....	150
5.11	Physical and chemical properties of apricot puree.....	150
5.12.	Rheological behaviour of apricot puree.....	150
5.13	Activation energy and the effect of temperature on viscosity of apricot puree.....	153
5.14	Oscillation tests.....	153
5.15	Mechanical properties of apricot fruit.....	155
6.	SUMMARY.....	165
7.	CONCLUSIONS AND RECOMMENDATIONS.....	171
8.	REFERENCES.....	173
9.	APPENDICES.....	191
10.	ARABIC SUMMARY.....
