

LIST OF CONTENTS

	Page
1. INTRODUCTION	1
2. AIM OF INVESTIGATION.....	5
3. REVIEW OF LITERATURE	6
1.Chemical composition of quail carcasses	6
2. Incidence of pathogenic bacteria in poultry carcasses	8
3. Effect of polyphosphate treatment on the quality of poultry carcasses.....	11
4. Effect of cold and frozen storage on poultry carcasses	17
4.1. Effect of cold and frozen storage on the microbiological quality of poultry carcasses	17
4.2. Effect of cold and frozen storage on the chemical properties of poultry carcasses.....	19
4.3. Effect of cold and frozen storage on the sensory properties of poultry carcasses.....	23
5.Effect of gamma irradiation on poultry carcasses	25
5.1. Effect of gamma irradiation on the microbiological quality of poultry carcasses.....	25
5.2. Effect of gamma irradiation on the chemical properties of poultry carcasses.....	30

5.3. Effect of gamma irradiation on the sensory properties of poultry carcasses.....	35
4- MATERIAL AND METHODS.....	39
. Material.....	39
1.1. Source of samples	39
2. Methods.....	39
2.1. Preparation of edible carcasses.....	39
2.2. Irradiation process.....	40
2.3. Storage.....	40
3. Analytical methods.....	41
3.1. Organoleptic evaluation	41
3.2. Microbiological analysis	41
3.2.1. Preparation of samples for analysis	41
3.2.1.1. Total bacterial counts	42
3.2.1.2. Total psychrophilic bacterial counts	42
3.2.1.3. Total mold and yeast counts	42
3.2.1.4. <i>Salmonella</i>	42
3.2.1.5. <i>Streptococcus faecalis</i>	43
3.3. Chemical analysis	43
3.3.1. Preparation of samples for analysis.....	43
3.3.1.1. Moisture, lipid, protein and ash content...	43
3.3.1.2. Total carbohydrates.....	43
3.3.1.3. Total volatile basic nitrogen (TVBN).....	44

3.3.1.4. Quantitative determination of the total amino acids content	44
3.3.1.5. Lipid extraction.....	45
3.4. Lipid analysis	45
3.4.1. Physical properties	45
3.4.1.1. Refractive index.....	45
3.4.1.2. Colour.....	45
3.4.2. Chemical properties	46
3.4.2.1. Acid value, peroxide value, iodine value, saponification value and unsaponifiable matter percentage.....	46
3.4.2.2. Thiobarbituric acid (TBA).....	46
3.5. Gas liquid chromatographic analysis	46
3.5.1. Preparation of fatty acids methyl esters...	46
3.5.2. Separation and identification of the fatty acids.....	47
5. RESULTS AND DISCUSSION.....	48
1. Prevalence of <i>Salmonella</i> on quail carcasses.....	48
2. Effects of gamma irradiation and soaking in STPP on the chemical composition of quail carcasses.....	50
3. Effects of gamma irradiation and soaking in STPP on the sensory properties of quail carcasses during cold storage at $4 \pm$	52

4. Effects of gamma irradiation and soaking in STPP on the overall acceptability percentages of quail carcasses during frozen storage at -18°C	58
5. Effects of gamma irradiation and soaking in STPP on the microbial load of quail carcasses during cold storage at $4 \pm 1^{\circ}\text{C}$	60
5.1. Total bacterial count.....	60
5.2. Total psychrophilic bacteria.....	64
5.3. Total mold and yeast counts	68
6. Effects of gamma irradiation and soaking in STPP on the pathogenic bacteria of quail carcasses during cold and frozen storage.....	72
6.1. Cold storage ($4 \pm 1^{\circ}\text{C}$).....	72
6.1.1. <i>Salmonella</i>	72
6.1.2. <i>Streptococcus faecalis</i>	74
6.2. Frozen storage (-18°C).....	78
6.2.1. <i>Salmonella</i>	78
6.2.2. <i>Streptococcus faecalis</i>	80
7. Effects of gamma irradiation and soaking in STPP on the total volatile basic nitrogen (TVBN) content of quail carcasses during cold and frozen storage.	82
7.1. Cold storage ($4 \pm 1^{\circ}\text{C}$).....	82
7.2. Frozen storage (-18°C).....	86

8. Effects of gamma irradiation and soaking in STPP on the amino acids composition of quail carcasses.....	89
9. Effects of gamma irradiation and soaking in STPP on the chemical properties of quail lipids during cold and frozen storage.....	97
9.1. Cold storage (4+1°C).....	97
9.1.1. Acid value	97
9.1.2. Peroxide value.....	101
9.1.3. Thiobarbituric acid (TBA).....	104
9.2. Frozen storage (-18°C).....	107
9.2.1. Acid value.....	108
9.2.2. Peroxide value.....	108
9.2.3. Thiobarbituric acid (TBA).....	110
10. Effects of gamma irradiation and soaking in STPP on the physicochemical properties of quail lipids.....	111
10.1. Physical properties.....	111
10.1.1. Refractive index.....	111
10.1.2. Colour.....	112
10.2. Chemical properties.....	112
10.2.1. Iodine value.....	112
10.2.2. Saponification value.....	114
10.2.3. Unsaponifiable matter content.....	114
