INTRODUCTION	1
REVIEW OF LITERATURE	3
I. Effect of water regime on growth and yield of <u>Capsicum annuum</u> L.	3
II. Effect of water regime on chemical composition and active ingredients	10
III. Effect of cytokinins on growth and yield of <u>Capsicum annuum</u> L. and other plants	15
IV. Effect of other growth regulators on the chemi- cal composition and active ingredients	25
V. The relationship between the water regime and growth regulators	31
MATERIALS AND METHODS	35
RESULTS AND DISCUSSION	42
I. Effect of water regime and growth regulators on vegetative growth and yield	42
1. Number of branches per plant	42
2. Number of fruits per plant	50
3. Fresh weight of whole plant	54
4. Fresh and dry weight percentage of leaves ...	59
5. Fresh and dry weight percentage of stems	66
6. Fresh and dry weight percentage of fruits ...	72
7. Fresh and dry weight percentage of roots	83
II. Effects of water regime and growth regulator on chemical composition and active ingredient	90
1. Determination of "Capsaicin"	90

	<u>Page</u>
2. Determination of carbohydrates	93
3. Determination of chlorophyll	97
