INTRODUCTION.....	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS.....	22
RESULTS AND DISCUSSION	29
I.Wheat response to soil application of nitrogen.....	
I.1. Growth characters.....	
a- Plant height.....	29
b- Number of green leaves / stalk.....	29
c- Flag leaf area.....	31
d- Number of stalks /m ²	31
e- Stem dry weight.....	32
f- Leaves dry weight.....	32
g- Spike dry weight.....	32
I.2. Grain yield, yield components, straw yield and biological yield:	
a- Plant height.....	33
b- Number of stalks /m ²	33
c- Number of spikes /m ²	33
d- Spikes weight /stalk ...	35
e- Number of grains / spike.....	35
f- Spike grain weight ...	36
g- Weight of 1000 – grain.	36
h- Grain yield /fad.....	37
I- Straw yield / fad.....	38
J- Biological yield / fad.	38
K- Harvest index.....	39
I.3. Chemical composition	39
a- Crude protein percentage in grain and straw.....	
b- Phosphorus percentage in grain and straw.	39
c- Potassium percentage in grain and straw	41
II – Wheat response to foliar application of Folactive:	

II.1. Growth characters.....	
a- Plant height.....	42
b- Number of green leaves / stalk.....	42
c- Flag leaf area.....	42
d- Number of stalks /m ²	42
e- Stem dry weight.....	42
f- Leaves dry weight.....	42
g- Spike dry weight.....	42
II.2. Grain yield, yield components, straw yield and biological yield:	
a- Plant height.....	
b- Number of stalks /m ²	45
c- Number of spikes /m ²	45
d- Spikes weight /stalk	45
e- Number of grains / spike.....	45
f- Spike grain weight	45
g- Weight of 1000 – grain.	45
h- Grain yield /fad.....	45
I- Straw yield / fad.....	46
J- Biological yield / fad.	46
K- Harvest index.....	48
II.3. Chemical composition	48
a- Crude protein percentage in grain and straw.	50
b- Phosphorus percentage in grain and straw.	
c- Potassium percentage in grain and straw .	
III- Interaction effects:	
1- Effect of the interaction on number of grains / spike.....	
2- Effect of the interaction on spike grain weight.....	52
3- Effect of the interaction on potassium percentage in straw.....	54
SUMMARY.....	57
LITERATURE CITED.....	62
