I. INTRODUCTION	1
II. REVIEW OF LITERATURE.....	5
II.1- Effect of mineral nutrients	5
A- Calcium	5
1 - On vegetative growth and flowering	5
2 - On chemical composition.....	11
B- Sodium silicate	12
1 - On vegetative growth and flowering	12
2 - On chemical composition.....	18
II.2- Effect of paclobutrazol and dikegulac sodium.....	20
A- Effect of paclobutrazol.....	20
1. On vegetative growth	20
2. On flowering.....	26
3. On chemical composition	30
B- Effect of dikegulac sodium (Atrimmec)	34
1. On vegetative growth	34
2. On flowering.....	38
3. On chemical composition.....	39
III. MATERIAL AND METHODS	41
IV. RESULTS AND DISCUSSION	52
IV.1- First Part.....	52
Effect of some mineral nutrients and some growth retardants on vegetative growth, flowering and chemical composition of <i>Limonium sinuatum</i> L. plants	
IV.1.A- Mineral nutrients	52
IV.1.A.1- On some vegetative measurements	52
IV.1.A.2- On some flowering characteristics	60
IV.1.A.3- On some chemical composition.....	71
IV.1.B- Growth retardants	
IV.1.B.1- On some vegetative measurements.....	78
IV.1.B.2- On some flowering characteristics	84
IV.1.B.3- On some chemical composition.....	94

Effect of some mineral nutrients and some growth retardants on vegetative growth, flowering and chemical composition of <i>Helichrysum bracteatum</i> Andr.	
IV.1.A- Mineral nutrients	99
IV.1.A.1- On some vegetative measurements	99
IV.1.A.2- On some flowering characteristics	107
IV.1.A.3- On some chemical composition.....	112
IV.1.B- Growth retardants	
IV.1.B.1- On some vegetative measurements.....	118
IV.1.B.2- On some flowering characteristics	125
IV.1.B.3- On some chemical composition.....	131
IV.2- Second Part.....	121
Effect of stage of flower development of <i>Limonium sinuatum</i> L. and <i>Helichrysum bracteatum</i> Andr. at harvest on number of flowers and quality of dry flowers yield	
IV.2.A- <i>Limonium sinuatum</i> L.	136
IV.2.A.1- Effect of stage of flower spike development at harvest.....	136
IV.2.A.2- Effect of foliar application of mineral nutrients.....	138
IV.2.A.3- Effect of foliar application of growth retardants.....	143
IV.2.B- <i>Helichrysum bracteatum</i> Andr.....	148
IV.2.B.1- Effect of stage of flower development at harvest	148
IV.2.B.2- Effect of foliar application of mineral nutrients	150
IV.2.B.3- Effect of foliar application of growth retardants	155
V. SUMMARY AND CONCLUSION	160
VI. REFERENCES.....	168
VII. ARABIC SUMMARY	168
