|----------------------------------------------------|-----|
| LIST OF TABLES                                     |     |
| AKNOWLEDGEMENT                                     |     |
| LST OF ABBREVIATIONS                               |     |
| 1. INTRODUCTION .....                              | 1   |
| 2. REVIEW OF LITERATURE .....                      | 3   |
| 2.1 Means and Variation .....                      | 3   |
| 2.1.1 Means .....                                  | 3   |
| 2.1.2 Variation .....                              | 21  |
| 2.2 Non-genetic Aspects .....                      | 21  |
| 2.2.1 Parity .....                                 | 25  |
| 2.2.2 Year-season .....                            | 36  |
| 2.3 Random Effects .....                           | 39  |
| 2.3.1 Sire of the doe effect .....                 | 39  |
| 2.3.2 Sire of the doe variance component .....     | 39  |
| 2.3.3 Doe effect .....                             | 51  |
| 2.3.4 Doe variance component .....                 | 53  |
| 2.4 Repeatability .....                            | 54  |
| 2.5 Breeding Value .....                           | 63  |
| 2.5.1 Concept .....                                | 63  |
| 2.5.2 Advantages and properties of procedurs ..... | 63  |
| 2.5.3 Limitations of animal model .....            | 65  |
| 3. MATERIAL AND METHOD .....                       | 66  |
| 3.1 Location and Period .....                      | 66  |
| 3.2 Animals .....                                  | 66  |
| 3.3 Breeding Plan .....                            | 66  |
| 3.4 Rabbitry .....                                 | 67  |
| 3.5 Housing .....                                  | 68  |
| 3.6 Management .....                               | 68  |
| 3.7 Feeding and Ration .....                       | 69  |
| 3.8 Data .....                                     | 69  |
| 3.9 Statistical Analysis and Methods .....         | 69  |
| 4. RESULTS AND DISCUSSION .....                    | 73  |
| 4.1 Means and Variation .....                      | 73  |
| 4.1.1 Means .....                                  | 73  |
| 4.1.2 Variation .....                              | 75  |
| 4.2 Non-genetic Aspects .....                      | 77  |
| 4.2.1 Parity .....                                 | 77  |
| 4.2.2 Year-season .....                            | 85  |
| 4.3 Random Effects .....                           | 86  |
| 4.3.1 Doe effect .....                             | 86  |
| 4.3.2 Doe variance component .....                 | 87  |
| 4.3.3 Common litter effect .....                   | 91  |
| 4.3.4 Common litter variance component .....       | 91  |
| 4.4 Repeatability .....                            | 95  |
| 4.5 Doe Breeding Value .....                       | 98  |
| 5. SUMMARY .....                                   | 110 |
| 6. REFERENCES .....                                | 113 |
| 7. ARABIC SUMMARY                                  |     |
