<b>1. INTRODUCTION .....</b>	<b>1</b>
<b>2. REVIEW OF LITERATURE .....</b>	<b>4</b>
<b>3. MATERIALS AND METHODS .....</b>	<b>30</b>
<b>4. RESULTS AND DISCUSSION .....</b>	<b>45</b>
<b>4.1. First experiment : Effect of biofertilizers application on vegetative growth, chemical constituents, flowering, yield and fruit quality of sweet peppers.....</b>	<b>45</b>
4.1.1. Effect of biofertilizer treatments on vegetative growth.....	45
4.1.2. Effect of biofertilizer treatments on NPK uptake and chlorophyll content in leaves (70 days after transplanting)..	51
4.1.3. Effect of biofertilizer treatments on NPK uptake ( 100 days after transplanting).....	55
4.1.4. Effect of biofertilizer treatments on flowering and fruit setting of sweet pepper.....	62
4.1.5. Effect of biofertilizer treatments on early and total fruit yield of sweet pepper and its components.....	65
4.1.6. Effect of biofertilizer treatments on quality of sweet pepper fruits.....	71
<b>4.2. Second experiment : Effect of organic fertilizer application on vegetative growth, chemical constituents, flowering, yield and fruit quality of sweet peppers.....</b>	<b>78</b>
4.2.1. Effect of organic fertilizer treatments on vegetative growth.....	78
4.2.2. Effect of organic-N fertilizer on NPK uptake and chlorophyll content in leaves (70 days after transplanting)..	87
4.2.3. Effect of organic-N fertilizer on NPK uptake (100 days after transplanting).....	94
4.2.4. Effect of organic fertilizer treatments on flowering and fruit setting of sweet pepper.....	102
4.2.5. Effect of organic fertilizer treatments on early and total fruit yield of sweet pepper and its components.....	105
4.2.6. Effect of organic fertilizer treatments on quality of sweet pepper fruits.....	112
<b>5. SUMMARY AND CONCLUSION .....</b>	<b>124</b>
<b>6. REFERENCES .....</b>	<b>135</b>
<b>7. ARABIC SUMMARY</b>
