

CONTENTS

<u>INTRODUCTION</u>	1
<u>REVIEW OF LITERATURE</u>	4
1-Growth hormone.....	4
2-Growth hormone gene isolation.....	8
3-Growth hormone detection.....	12
4.Growth hormone gene detection of transgenic.....	15
5-DNA isolation and purification.....	17
6-Methods of gene transfer.....	21
7-Protein detection.....	29
8-Cytological study.....	31
 <u>MATERIALS AND METHODS</u>	35
<u>I-Materials</u>	35
1. Strains of poultry	35
2. Chemicals.....	36
<u>II. Methods</u>	36
1. DNA isolation and purification.....	37
2. Determination of DNA concentration.....	38
3. Growth hormone gene isolation.....	38
4. Ducks GH gene and DNA injection in air sac and embryo	40
5. Introduction of ducks GH gene and DNA by combined effect...	41
6. The measurement of GH level in plasma.....	41
7. The determination of total protein by spectrophotometric.....	41
8. The determination of total protein bands by SDS-PAGE.....	42
9.The determination of total DNA bands by agarose gel.....	43
10.Cytological studies.	45
11.Statistical analysis.....	46
 <u>EXPERIMENTAL RESULTS</u>	46
<u>I- Eggs treatments</u>	46
A.Effect of ducks GH gene and DNA injection in air sac.....	67
B.Effect of ducks GH gene and DNA injection in embryo.....	82
C. Introduction of ducks GH gene and DNA by combined effect....	

<u>II.Measurments</u>	96
1-Growth hormone measurements.....	96
2- Total protein.....	101
<u>III. Gel electrophoresis</u>	106
2-Total protein by SDS-PAGE.....	106
3-Total DNA by agarose.....	108
<u>IV-Cytological examination</u>	112
<u>DISCUSSION</u>	128
II-Egg treatments	132
1-The first method (injection).....	132
2-The second method (combined effect).....	136
<u>II- Measurements</u>	137
1-Growth hormone	137
2-Total protein.....	138
<u>III- Gel electrophoresis</u>	139
1.SDS-PAGE.....	139
2.Agarose gel (DNA).....	139
<u>IV- Cytological examination</u>	141
<u>SUMMARY AND CONCLUSION</u>	144
<u>REFERENCES</u>	148
<u>ARABIC SUMMARY</u>
