INTRODUCTION	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS	38
RESULTS AND DISCUSSION	42
1. Effect of different media on the vegetative growth of <i>Aralia longifolium</i> L.	42
1.1. Plant height	42
1.2. Number of leaves	51
1.3. Leaf area	57
1.4. Vegetative fresh weight of the plant	61
1.5. Dry weight of vegetative growth	66
2. Chemical Analysis	71
2.1. Content of NPK nutrients in the different media before and after planting	71
2.2. Effect of media on the chemical constituents in the leaves of <i>Aralia longifolium</i> L.	74
3. Effect of the different media on the vegetative growth of <i>Cupressus sempervirens</i> L.	83
3.1. Plant height	83
3.2. Number of shoots per plant	90
3.3. Vegetative fresh weight	94

3.4. Dry weight of vegetative growth	99
4. Effect of media on the chemical constituents in the branches of <i>Cupressus sempervirens</i> L.	103
5. Effect of light intensity on the vegetative growth of <i>Aralia longifolium</i> L.	111.
6. Effect of light intensities in (the open location) on the chemical constituents of <i>Aralia longifolium</i> L.	130
7. Effect of light intensity on the vegetative growth of <i>Cupressus sempervirens</i> L.	136
8. Effect of light intensities in (the open location) on the chemical constituents of <i>Cupressus sempervirens</i> L.	152
9. Effect of light intensities and plant nutrition on <i>Cupressus sempervirens</i> L.	157
9.1. Plant height	157
9.2. Branch number	163
9.3. Vegetative fresh weight	170
9.4. Total carbohydrates content	177
9.5. Total phenols	184
