1.INTRODUCTION.....	1
2.REVIEW OF LITERATURE.....	3
1. Effect of heavy metals on vegetable plants.....	3
1.1 Effect of cadmium.....	4
1.2 Effect of nickel.....	9
1.3. Effect of lead.....	12
1.4. Effect of sludge borne heavy metals.....	15
2. Factors affecting heavy metal accumulation in plant.....	20
2.1. Cultivar effect.....	20
2.2. Soil amendments effect.....	24
a. Organic matter.....	25
b. Clay	26
c. Calcium carbonate.....	27
3. MATERIALS AND METHODS.....	30
4. RESULTS AND DISCUSSION.....	39
1.THE FIRST EXPERIMENT (Pot experiment).....	39
Effect of cultivar, Cd level and soil amendments on:	
1.1. Plant growth characteristics.....	39
1.2. Macro and micro-nutrients.....	46
1.3. Heavy metals.....	53
1.4. Some metabolic changes.	64
2. THE SECOND EXPERIMENT (Pot experiment).....	72
Effect of cultivar, Ni level and soil amendments on:	
2.1. Plant growth characteristics.....	72
2.2. Macro and micro-nutrients.....	78
2.3. Heavy metals.....	84
2.4. Some metabolic changes.....	96

CONTENTS (Cont.)

3.THE THIRD EXPERIMENT (Pot experiment).....	102
Effect of cultivar, Pb level and soil amendments on:	
3.1. Plant growth characteristics.....	102
3.2. Macro and micro-nutrients.....	109
3.3. Heavy metals.....	115
3.4. Some metabolic changes.	127
4.THE FOURTH EXPERIMENT (Field experiment)	133
Effect of cultivar, sludge rate and soil amendments on:	
4.1. Plant growth characteristics.....	133
4.2. Yield.....	137
4.3. Macro and micro-nutrients.....	139
4.4. Heavy metals.....	145
4.5. Some metabolic changes.	153
5. SUMMARY	160

3. THE THIRD EXPERIMENT (Pot experiment).....	102
Effect of cultivar, Pb level and soil amendments on:	
3.1. Plant growth characteristics.....	102
3.2. Macro and micro-nutrients.....	109
3.3. Heavy metals.....	115
3.4. Some metabolic changes.	127
4. THE FOURTH EXPERIMENT (Field experiment)	133
Effect of cultivar, sludge rate and soil amendments on:	
4.1. Plant growth characteristics.....	133
4.2. Yield.....	137
4.3. Macro and micro-nutrients.....	139
4.4. Heavy metals.....	145
4.5. Some metabolic changes.	153
