	Page
I. INTERODUCTION.....	1
II. REVIEW OF LITERATURE.....	3
II.1. Effect of micro-nutrient elements application on vegetative growth of grape vines.....	4
II.2. Effect of micro-nutrient elements application on leaf mineral content.....	7
II.3. Effect of micro-nutrient elements application on yield and fruit quality.....	13
II. MATERIAL AND METHODS.....	27
IV. RESULTS AND DISCUSSIONS.....	37
IV.1. Vegetative growth.....	38
IV.1.1. Bud burst percent.....	38
IV.1.2. Vegetative shoots percent.....	40
IV.1.3. Fruitful shoots percent.....	42
IV.1.4. Shoots length.....	44
IV.1.5. Number of leaves per shoots.....	46
IV.1.6. Leaf area(cm ²).....	48
IV.1.7. Weight of one-year-old removed wood(kg).....	50
IV.2. Effect of micro-nutrient elements application on leaf mineral composition.....	52
IV.2.1. Nitrogen content.....	52
IV.2.2. Phosphorous content.....	54
IV.2.3. Potassium content.....	57
IV.2.4. Zinc content.....	59
IV.2.5. Iron content.....	63
IV.2.6. Manganese content.....	66
IV.2.7. Boron content.....	69
IV.3. Yield and fruit quality.....	73
