1. INTRODUCTION	1
2. REVIEW OF LITERATURE.	3
2.1. Status and forms of soil P.	3
2.1.1. Soil solution P.	4
2.1.2. Labile P pool in soils... ..	5
2.1.3. Phosphorus of the non-labile fraction... ..	7
2.2. Retention and release of P in soil... ..	8
2.2.1. Factors affecting phosphate retention in soils	9
2.2.1.1. Soil pH.	10
2.2.1.2. Temperature..	11
2.2.1.3. Concentration of solution P.	12
2.2.1.4. Time of reaction..	13
2.2.1.5. Calcium carbonate content in soils	14
2.2.1.6. Type of clay minerals..	16
2.3. Representation of P adsorption by soils... ..	19
2.3.1. Phosphorus adsorption plotting to Langmuir adsorption isotherm.	20
2.3.2. Modified forms of Langmuir adsorption isotherm	23
2.3.3. Freundlich equation..	24
2.4. Phosphorus diffusion in soils	26
3. MATERIALS AND METHODS:	33
3.1. Soil sampling and soil analysis..	33
3.2. Identification of the tested soil samples.	33
3.2.1. Physical analysis of the soils.	33
3.2.2. Mineralogical analysis... ..	35
3.2.3. Soil chemical analysis	35
3.3. Experimental work.	39
2.3.1. Retntion of phosphate by soil	39
3.3.2. Phosphorus release in soils... ..	41

	Page
3.3.3. Measurements of P diffusion coefficient... ..	42
3.4. Phosphorus determinations	44
4. RESULTS AND DISCUSSION... ..	45
4.1. Retention and release of P in soils	45
4.1.1. Retention of added P by soils... ..	45
4.1.1.1. Retention of P by soils in relation to the concentration of added P.	52
4.1.1.2. Retention of P by soils in relation to temperature.	55
4.1.1.3. Retention of P by soils in relation to time of reaction.	57
4.1.2. Release of soil P..	59
4.1.2.1. Soil P recovery by water..	59
4.1.2.2. Soil P recovery by NaHCO ₃ solution.	63
4.2. Adsorption of P by soils..	67
4.2.1. Adsorption of P as represented by Langmuir Isotherm	68
4.2.2. Adsorption of P by soils as represented by the modified forms of Langmuir adsorption isotherm.	77
4.2.2.1. Adsorption of P by soils as represented by Muljadi equation... ..	79
4.2.2.2. Adsorption of P by soils as represented by Junary equation.	94
4.2.3. Adsorption of P by soils as represented by Freudlich equation... ..	97
4.3. Diffusion of ³² P in soil systems.	102
4.3.1. Diffusion of ³² P as a function of soil moisture content. "θ"	102
4.3.2. P diffusion as a function of the rate of P application... ..	109
4.3.3. P diffusion as a function of clay content... ..	110
