1.INTRODUCTION.	1
2.REVIEW OF LITERATURE.	2
2.1. Plant and saline conditions.	2
2.2. Effect of salinity on cotton plants.	5
2.2.1. Effect of salinity on cotton growth characters.	6
2.2.2. Effect of salinity on cotton during different growth periods.	8
2.2.3. Effect of salinity on chemical component of cotton plants	10
2.2.3.1. Effect of salinity on nitrogen in cotton plants.	11
2.2.3.2. Effect of salinity on phosphorus in cotton plants	15
2.2.3.3. Effect of salinity on potassium in cotton plants.	18
2.2.3.4. Effect of salinity on sodium in cotton plants.	21
2.2.3.5. Plant chemical component ratios.	22
2.2.4. Effect of salinity on cotton yield.	23
2.2.4.1. Effect of salinity on cotton dry weight	24
2.2.4.2. Effect of salinity on cotton flowering.	26
2.2.4.3. Effect of salinity on cotton yield, boll and lint.	27
2.3. Effect of saline water on soil EC and pH	30
3.MATERIALS AND METHODS	32
3.1. Involved treatments and statistical design	32
3.1.1. Statistical design.	32
3.2. Experimental procedure	35
3.2.1. Preparation of irrigation water	35
3.3. Data recorded	38
3.4. Analyses and analytical procedures	38
3.4.1. Soil analysis.	38
3.4.2. Water analysis.	39
3.4.3. Plant analysis.	39

4.RESULTS AND DISCUSSION.	40
Introductory résumé	40
4.1. Effect of salinity on cotton plant growth characters.	41
4.1.1. Effect of salinity on height of cotton plants.	41
4.1.2. Effect of salinity on growth characters of cotton plants.	46
4.1.2.1. Effect of salinity on cotton leaf number per plant	46
4.1.2.2. Effect of salinity on cotton leaf area (cm ² /plant)	51
4.2. Effect of salinity on chemical components of cotton plants.	56
4.2.1. Effect of salinity on plant nitrogen.	57
4.2.2. Effect of salinity on plant phosphorus.	63
4.2.3. Effect of salinity on plant potassium	69
4.2.4. Effect of salinity on plant sodium.	73
4.3. Effect of salinity on cotton yield	78
4.3.1. Effect of salinity on cotton dry weights.	79
4.3.2. Effect of salinity on flowering	82
4.3.3. Effect of salinity on boll production	89
A. Effect of salinity on boll retention	89
B. Effect of salinity on lint yield	94
3.4. Relationship of soil soluble salts with plant chemical components and yield.	96
4.4.1. Soil soluble salts and reactions.	97
4.4.2. Soil soluble salts (EC _e) and plant chemical components	97
4.4.3. Soil salinity (EC _e) and cotton yield.	102
A. Dry weight.	102
B. Boll number per plant	104
C. Lint yield.	105
5.SUMMARY.	108
