

CONTENTS

	PAGE
I-INTRODUCTION	1
II-REVIEW OF LITERATURE	3
II-1 Effect of nitrogen fertilization levels	3
II-1-1 Growth characters	3
II-1-2 Yield and yield components	7
II-1-3 Technological properties of cotton fiber	12
II-1-4 Cotton seed chemical contents	16
II-1-5 Nutrients content in cotton plant and soil	18
II-2 Effect of phosphorus fertilization levels	22
II-2-1 Growth characters	22
II-2-2Yield and yield components	24
II-2-3 Technological properties of cotton fiber	29
II-2-4 Cotton seed chemical contents	32
II-2-5 Nutrients content in cotton plant and soil	33
II-3 Effect of biofertilizers	36
III-MATERIALS AND METHODS.	43
III-1 Field experiments	43
III-2 Statistical procedure	44
III-3 Soil analysis	45
III-4 Plant sampling and analysis	45
III-5 Studied Characters	47

IV-RESULTS AND DISCUSSION.	49
IV-1 Effect of fertilization programs on growth characters	50
IV-1-1 Effects on plant height	50
IV-1-2 Effects on node number of the fruiting branch ..	53
IV-1-3 Effects on flowering date	55
IV-2 Effect of fertilization programs on yield and yield components	55
IV-2-1 Effects on the number of fruiting branches per plant	55
IV-2-2 Effects on the number of total bolls per plant ...	58
IV-2-3 Effects on the number of opened bolls per plant	61
IV-2-4 Effects on boll weight	64
IV-2-5 Effects on seed cotton yield	66
IV-2-6 Effects on the earliness percentage	70
IV-3 Effect of fertilization programs on Technological properties of cotton fibers.....	73
IV-3-1 Effects on seed index	73
IV-3-2 Effects on lint percentage	75
IV-3-3 Effects on fiber properties	78
IV-4 Effect of fertilization programs on chemical contents cotton of seed	84
IV-4-1 Effects on oil percentage	84
IV-4-2 Effects on protein percentage.....	84

IV-5 Effect of fertilization programs on nutrients	
content in plant and soil	87
IV-5-1 Effects on plant uptake of nutrients	87
IV-5-2 Effects on soil available nutrients	97
V- SUMMARY AND CONCLUSION	121
VI- REFERENCES	131
ARABIC SUMMARY
