

TABLE OF CONTENTS

	Page
I. INTRODUCTION	1
II. REVIEW OF LITERATURE	3
* Principles and Terminology of Tracer Studies with N-15	3
* Advantages of Use N-15 Tracer in Agricultural and Soil Research	10
* Principles and Guidelines for Use of Isotopically Labelled Fertilizers in Field and Growth Chamber Experiments	14
* Recovery of Fertilizer Nitrogen by Plant ..	21
* Nitrogen loss by Ammonia Volatilization	28
* Nitrogen Loss Via Denitrification	33
* Biological Immobilization	45
III. MATERIALS AND METHODS	58
* Used Materials	51
* Experimental Work	60
* Analytical Procedures	64
IV. RESULTS AND DISCUSSION	67
* Balance Sheet Assessing Fertilizer Nitrogen in a Sandy Soil	67
* Utilization of Fertilizer Nitrogen Applied at Various Rates to the Virgin Sandy Desert Soil Under Wheat	93
* Utilization of Fertilizer Nitrogen Applied at Various Rates to an Arable Clay Loam Soil Under Wheat	113
* Evaluation of the Efficiency of the Different Nitrogen Sources in the Alluvial Soil	150
* Evaluation of the Efficiency of the Different Nitrogen Sources in the Two Soils	160
V. SUMMARY	212
VI. REFERENCES	220
VII. ARABIC SUMMARY	---
