Subject	Page
I- INTRODUCTION	1
II- REVIEW OF LITERATURE	3
II-1 Effect of nitrogen fertilization.	3
II-1-1 Growth characters	3
II- 1-2 Yield and yield components.	4
II- 1-3 Seed quality.	6
II1-1-4 NPK components.	7
II-2 Effect of phosphorus fertilization.	9
II-2-1 Growth characters.	9
II- 2-2 Yield and yield components.	11
II- 2-3 Seed quality.	13
II-2-4 NPK components.	14
II-3 Effect of potassium fertilization.	15
II-3-1 Growth characters	16
II-3-2 Yield and yield components	16
II-3-3 Seed quality	18
II-3-4 NPK components	19
II-4 Effect of the interactions	19
III MATERIALS AND METHODS.	23
III-1 Field experiments.	23
III-2 Soil analysis.	24
III-3 Plant growth measurements.	26

III-4 Data recorded	27
III-5 Chemical analysis.	28
III-6 Statistical analysis.	28
IV- RESULTS AND DISCUSSION.	29
IV-1 Growth characters.	29
IV-1-1 Plant height after 90 days from sowing	30
IV-1-2 Plant height at harvesting.	31
IV-1-3 Number of leaves per plant after 90 days from sowing	34
IV-1-4 Number of days to appear first flower.	36
IV-1-5 Flowering date.	40
IV-1-6 Number of branches per plant.	42
IV-1-7 Dry weight after 90 days from sowing	43
IV-1-8 Dry weight at harvesting.	45
IV-2 Yield and yield components.	47
IV-2-1 Number of pods per plant.	47
IV-2-1 Number of seeds per pod.	50
IV-2-3 1000- seed weight.	52
IV-2-4 Seed yield.	54
IV-2-5 Straw yield.	57
IV-3 Seed quality	60
IV-3-1 Seed oil percentage.	60
IV-3-2 Seed oil yield.	62
IV-3-3 Seed protein percentage	63

IV-3-4 Seed protein yield	65
IV-4 NPK components.	67
IV-4-1 NPK percentage	67
IV-4-2 NPK uptake.	78
V- SUMMARY	94
VI- REFERENCES.	102
ARABIC SUMMARY
