

CONTENTS

Acknowledgment

1-Introduction.....	1
2- Review of Literatures.....	4
2.1 -Effect of plant growth regulators on germination criteria.....	4
2.2 -Effect of growth regulators on the morphological characters.....	6
2.3 -Effect of plant growth regulators on organic components	7
2.4 -Effect of growth regulators on some nutrient elements uptake.....	8
2.5 -Effect of Zn, Mn or Fe deficiencies on different growth	10
aspects.....	
3- Material and Methods.....	13
3.1 -Source of seeds	13
3.2 -Preparation of stored seeded fruits for cultivation.....	14
3.3 -Preparation of cultivation culture	14
3.4 -The growth regulators used in the present study.....	15
3.5 -Experimental Treatments	16
3.5.1 -Experiment I	16
-Effect of some growth regulators on germination of El-Hamawy	
.cultivar.....	16
3.5.2 -Experiment II	16
-Effect of some growth regulators on germination and seedling growth of	
.apricot cv.El-Amar.....	16
3.5.3 -Experiment III	17
-Effect of deficiency of some micro-nutrients on germination and seedling	
.growth of apricot cv. El-Amar.....	17
3.6 -Irrigation of the experiments	18
3.7 -Collecting Data	19
3.7.1 -Effect of GA ₃ or IAA at 10 ppm on germination of cv. El-Hamawy	
.apricot.....	19
3.7.2 -Effect of some growth regulators on germination and seedling growth of	
.apricot cv. El-Amar	20
3.7.3 -Effect of deficiency of Zn,Mn, and Fe on apricotcv. El-Amar	21
3.8 -Statistically analysis	22
3.9 -Samples for chemical analysis	22
3.10 -Methods of chemical determination.....	24
4- Results and discussion.....	30
4.1 -Experiment I.....	30
-The effect of GA ₃ or IAA at 10 ppm on Germination, and growth.....	30

4.1.1	-Effect on germination criteria	31
4.1.2	-Effect on the fresh and dry weight	32
4.1.3	-The effect on some organic components.....	35
4.1.3.1	-Carbohydrate	35
4.1.3.2	-Protein fractions	36
4.1.3.3	-Total and Free amino acids	41
4.1.4	-Macro and Micro-nutrients status	44
4.2	-Experiment II.....	50
	-Effect of the growth regulators GA ₃ , IAA, CCC and MH in the..... assigned concentration and different combination on seedling growth..... of apricot cv. El-Amar	50
4.2.1	-Germination criteria	51
4.2.2	-Root length and number of lateral roots	53
4.2.3	-Seedling growth.....	54
4.2.3.1	-Stem length, number of internodes and internode length.....	54
4.2.3.2	-Number of leaves.....	58
4.2.4	-Fresh and dry weights	61
4.2.4.1	-Fresh and dry weights at 30 days.....	61
4.2.4.2	-Fresh and dry weight at 72 days.....	65
4.2.5	-Carbohydrate fractions in different seedling organs	65
4.2.6	-Protein fractions in different seedling organs	68
4.2.7	-Picture of total amino acids	73
4.2.8	-Nutrient changes during different periods of seedling growth	76
4.3	-Experiment III.....	94
	-Effect of Zn,Mn and Fe deficiency on germination and seedling growth of cv.El Amar.....	94
4.3.1	-Germination process	96
4.3.2	-Seedling growth	96
4.3.2.1	-Main stem length	96
4.3.2.2	-Internode number of main stem	97
4.3.2.3	-Number of branches per seedling at 120 days from sowing.....	99
4.3.2.4	-Main stem diameter at 120 days	99
4.3.2.5	-Leaves number per seedling	102
4.3.3	-Photosynthetic pigments	108
4.3.4	-Dry weight in different plant organs at 120 days	111
4.3.5	-Carbohydrate fractions	113
4.3.6	-Protein fractions	116
4.3.7	-Total amino acids	119
4.3.8	-Macro-andmicro-nutrients.....	123
5-	Conclusion.....	136
6-	Summary ..	139
7-	References	143
8-	Arabic summary
