	Page
1.INTRODUCTION	1
2.REVIEW OF LITERATURE	3
2.1. Biochemical Studies	3
2.1.1.- <i>Lantana Camara</i>	3
2.1.2. Lemon grass.....	6
2.1.3. Volatile production.....	9
2.1.4. Chemical defenses.....	9
2.1.5. Phytoxins	10
2.2. Biological Studies.....	11
2.2.1. <i>Lantana Camara</i>	11
2.2.2. Lemon grass.....	17
3.MATERIAL AND METHODS.....	23
3.1. Tested Plants.....	23
3.1.1. <i>Lantana camara</i>	23
3.1.2. <i>Cymbopogon citrates</i>	24
3.2. Rearing the test insects.....	24
3.3. Preparation of plant extractions.....	24
3.4. Volatile oils.....	25

3.5. Chemical investigations.....	25
3.5.1. Saponification of petroleum ether extract of Lantana and Lemon grass oils.....	26
3.5.1.1.Extraction of fatty acids.....	26
3.5.1.2. Preparation of fatty acids methyl esters	26
3.5.1.3. Identification and quantitative determination of fatty acids by gas liquid chromatography (GLC).....	27
3.5.2.Gas chromatography/ Mass spectrometry analysis.....	28
3.5.3.Preliminary phytochemical screening tests	28
3.5.4. Quantitative determination	32
3.5.5. Toxicity tests.....	33
3.5.6. Statistical analysis of data.....	34
4. RESULTS AND DISCUSSION	35
4.1. Chemical investigation.....	35
4.1.1. The percentages of volatile oils and the different gradual extracts of <i>lantana</i> <i>camara</i> and lemon grass leaves.....	35
4.2.Biological Studies.....	58
4.2.1. <i>Lantana camara</i> extracts.....	58
4.2.2. Lemon grass extracts.....	61

4.2.2. Lethal concentration toxicity (LC _n) of seven days after treatment with <i>Lantana camara</i> extracts.....	67
4.2.2.1. Petroleum ether extract.....	67
4.2.2.2. Chloroform extract.....	69
4.2.2.3. Acetone extract.....	70
4.2.2.4. Ethanol extract.....	71
4.2.2.5. Volatile oil.....	72
4.2.3. Lethal concentration toxicity (LC _n) of seven days after treatment with lemon grass extracts	74
4.2.3.1. Petroleum extract	74
4.2.3.2. Chloroform extract.....	75
4.2.3.3. Acetone extract.....	77
4.2.3.4. Volatile oil.....	78
4.2.4. Comparison between lethal concentration toxicity of different extracts of lemon grass.....	79
4.2.5. Lethal time toxicity (LT _n) of different concentration for various <i>lantana camara</i> extracts.....	79
4.2.5.1. Petroleum ether extract.....	79
4.2.5.2. Chloroform extract.....	81
4.2.5.3. Acetone extract.....	82
4.2.5.4. Ethanol extract.....	83

4.2.5.5. Volatile oil.....	84
4.2.6. Comparison between lethal time toxicity of different extracts of <i>Lantana camara</i>	86
4.2.7. Lethal time toxicity (LTn) of different concentration for various extracts of lemon grass.....	86
4.2.7.1. Petroleum ether extract.....	86
4.2.7.2. Chloroform extract.....	88
4.2.7.3. Acetone extract.....	89
4.2.7.4. Volatile oil.....	90
5.SUMMARY	94
6.REFERENCES.....	102
7.ARABIC SUMMARY.....	-
