List of Tables.	II
List of Figures.	VI
I. Introduction.	1
II. Review of literature.	6
III. Materials and methods.	74
IV. Results and discussion:	91
IV.1. Cytological studies.	91
IV.1.1 Chromosomal behaviour.	91
IV.1.2 Pollen grains viability .	102
IV. 2. Pollination studies :	108
IV. 2.1. Effect of different pollination treatments on fruit set of Le-Conte pear and Anna apple cvs.....	108
IV.2.2. Effect of different pollination treatments on fruit retention of Anna apple cv.....	111
IV.2.3. Effect of different pollination treatments on fruit quality of Anna apple cv.....	114
IV.2.4. Effect of different pollination treatments on fruit histology of Anna apple and Le-Conte pear cvs .....	123
IV.3. Physiological studies :	130
IV.3.1. Effect of PP <sub>333</sub> & CCC foliar sprays at various concentrations & dates and their interactions on vegetative growth measurements of Anna apple and Le-Conte pear cvs.....	130
IV.3.2.Effect of PP <sub>333</sub> & CCC foliar sprays at various concentrations & dates and their interactions on flowering measurements of Anna apple and Le-Conte pear cvs. ....	142
IV.3.3. Effect of PP <sub>333</sub> & CCC foliar sprays at various concentrations & dates and their interactions on fruiting measurements of Anna apple and Le-Conte pear cvs.....	151
IV.3.4. Effect of PP <sub>333</sub> & CCC foliar sprays at various concentrations & dates and their interactions on fruit quality of Anna apple cv.....	158
IV.3.5. Effect of PP <sub>333</sub> & CCC foliar sprays at various concentrations & dates and their interactions on flower buds anatomy of Anna apple and Le-Conte pear cvs. ....	172
V. Summary and conclusion.	182
VI. Literature cited.	202
VII. Arabic summary.	227

## *LIST OF TABLES*

<i>Tables :</i>	<i>Page</i>
1- Chromosomal behaviour through Diakinesis and Metaphase I stages of meiosis in studied pome species and cultivars.....	97
2-Pollen grains stainability and germination of some pome species. ....	106
3-Fruit set percentage of " Le-Conte" pear and " Anna" apple cultivars as influenced by different pollination treatments.....	110
4- Fruit retention of " Anna" apple cultivar as influenced by different pollination treatments.....	113
5,6- Fruit physical properties of " Anna" apple cultivar as influenced by different pollination treatments.....	118-119
7- Fruit chemical properties of "Anna" apple cultivar as influenced by different pollination treatments. ....	122
8- Some growth measurements of " Anna" apple trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates:.....	134
8-A-Specific effect of growth retardants, concentrations and spraying dates. ....	134
8-B- Interaction effect of ( growth retardants x spraying dates).....	134
8-C- Interaction effect of ( growth retardants x concentrations).....	134
8-D-Interaction effect of (spraying dates x concentrations).....	135
8-E-Interaction effect of ( growth retardants x concentrations x spraying dates) .....	135
9- Some growth measurements of " Le-Conte" pear trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates: .....	140

9-A-Specific effect of growth retardants, concentrations and spraying dates.....	140
9-B- Interaction effect of ( growth retardants x spraying dates).....	140
9-C- Interaction effect of ( growth retardants x concentrations).....	140
9-D- Interaction effect of ( spraying dates x concentrations).....	141
9-E. Interaction effect of ( growth retardants x concentrations x spraying dates). ....	141
10- Some flowering measurements of “ Anna” apple trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates: .....	145
10-A- Specific effect of (growth retardants, concentrations and spraying dates. ....	145
10-B- Interaction effect of (growth retardants x spraying dates).....	145
10-C- Interaction effect of (growth retardants x concentrations).....	145
10-D-Interaction effect of (spraying dates x concentrations).....	146
10-E- Interaction effect of (growth retardants x concentrations x spraying dates) .....	146
11- Some flowering measurements and fruit set of “Le-Conte” pear trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates: .....	149
11- A- Specific effect of growth retardants, concentrations and spraying dates. ....	149
11-B- Interaction effect of ( growth retardants x spraying dates).....	149
11-C- Interaction effect of ( growth retardants x concentrations).....	149
11-D- Interaction effect of (spraying dates x concentrations).....	150
11-E- Interaction effect of ( growth retardants x concentrations x spraying dates). ....	150
12- Fruiting aspects of “ Anna” apple trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates :.....	155
12-A- Specific effect of growth retardants, concentrations and spraying dates. ....	155

12-B- Interaction effect of ( growth retardants x spraying dates).....	155
12-C- Interaction effect of ( growth retardants x concentrations).....	155
12-D- Interaction effect of (spraying dates x concentrations).....	156
12-E- Interaction effect of ( growth retardants x concentrations x spraying dates).....	156
13,14- Fruit physical properties of “ Anna” apple trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates :.....	164,166
13,14-A-Specific effect of growth retardants, concentrations and spraying dates. ....	164,166
13,14-B-Interaction effect of (growth retardants x spraying dates).....	164,166
13,14-C-Interaction effect of (growth retardants x concentrations).....	164,166
13,14-D-Interaction effect of (spraying dates x concentrations).....	165,167
13,14-E-Interaction effect of (growth retardants x concentrations x spraying dates). ....	165,167
15- Fruit chemical properties of “ Anna” apple trees as affected by PP <sub>333</sub> & CCC foliar sprays at various concentrations and dates: .....	170
15-A-Specific effect of growth retardants, concentrations and spraying dates. ....	170
15-B- Interaction effect of ( growth retardants x spraying dates).....	170
15-C- Interaction effect of ( growth retardants x concentrations).....	170
15-D- Interaction effect of (spraying dates x concentrations).....	171
15-E- Interaction effect of ( growth retardants x concentrations x spraying dates). ....	171
16- Number of flower buds developed per 10 Anna apple sampled buds at various stages as affected by full bloom sprays with CCC & PP <sub>333</sub> .....	176
17- Number of flower buds developed per 10 Le-Conte pear sampled buds at various stages as affected by full bloom sprays with CCC & PP <sub>333</sub> . ....	177
