INTRODUCTION.....	1
REVIEW OF LITERATURE.....	4
I. Seasonal abundance of some armored scale insects	4
1.2. The purple scale insect, <i>Cornuaspis beckii</i> (Newman)	4
1.3. The date palm scale insect, <i>Parlatoria blanchardii</i> (Targ.).....	8
1.4. The red scale insect, <i>Aonidiella aurantii</i> (Maskell).....	10
1.5. The citrus wax scale insect, <i>Ceroplastes floridensis</i> (Comstock).....	12
II. Ecological studies.....	14
III. Natural enemies.....	19
III.1. Parasitoids.....	19
III.2. Predacious mites.....	31
IV. Chemical control.....	35
IV.1. Efficacy of pesticides on some scale insects.....	35
IV.2. Effective timing of application.....	46
IV.3. Effects of pesticides on natural enemies.....	52
MATERIAL AND METHODS.....	56
I.. Population studies of the scale insects infesting fruits trees and their natural enemies.....	56
II.. Population dynamics of scale insects and their natural enemies.....	56
II.1. Sampling.....	57
II.2. Area of experimental study.....	57
III.. Effects of the weather factors on the population of the Diaspidid and the Coccoid scale insects population.....	59

IV. Chemical control.....	60
IV.1 Experimental design.....	60
IV.1.a. Experimental design of <i>Cornuaspis beckii</i> (Newm.) and its parasitoids at Shobra Hares, Qalubiyah Governorate.....	60
IV.1.b. Experimental design of <i>Parlatoria blanchardii</i> (Targ.) and its parasitoids at Degwa region, Qalubiyah Governorate.....	60
IV.1.c. Experimental design of <i>Aonidiella aurantii</i> (Mask.) and its parasitoid at Shobra Hares region, Qalubiyah Governorate	61
IV.1.d. Experimental design of <i>Ceroplastes floridensis</i> (Comstock) at Shobra Hares region, Qalubiyah Governorate.....	61
IV.1.e. Experimental design of infested fruit count at Shobra Hares, Qalubiyah Governorate	61
IV.2. Spraying.....	61
IV.3. Sampling.....	61
IV.4. Counting.....	62
IV.5. Evaluation of treatments.....	62
IV.6. Insecticides used.....	63
IV.6.a. Actellic.....	63
IV.6.b. Applaud (Buprofezin wp 25) other name ini 750.....	63
IV.6.c. Basudin (Diazinon) 60 EC.....	64
IV.6.d. Methadithion (Supracid).....	64
IV.6.e. Dimethoate.....	64
IV.6.f. Anthio (Formathion)	65
IV.6.g. Malathion.....	65
IV.6.h. Selecron.....	66
IV.6.i. KZ oil.....	66
IV.6.j. Chemical control trials.....	67

RESULTS AND DISCUSSION.....	69
I. Seasonal fluctuation in population of the purple scale insect, <i>Cornuaspis beckii</i> , infesting Washington citrus trees and factors affecting on it.....	69
I.1. Preadult stages (N1+N2)	69
I.2. Adult females.....	69
I.3. Ovipositing females.....	70
I.4. Adult males.....	70
I.5. Total population.....	70
I.11. Monthly variation rate (M.V.R.) in <i>Cornuaspis beckii</i> Population abundance.....	71
II. Seasonal fluctuation in population of the Date-palm scale insect, <i>Parlatoria blanchardii</i> (Targ.) infesting Valencia citrus trees and factors affecting on it.....	74
II.1. Preadult stages (N1+N2).....	74
II.2. Adult females.....	74
II.3. Ovipositing females.....	75
II.4. Adult males.....	75
II.5. Total population	75
II.11. Monthly variation rate (M.V.R.) in <i>Parlatoria blanchardii</i> population abundance.....	76
III. Seasonal fluctuation in population of the California Red scale insect, <i>Aonidiella aurantii</i> population infesting Baladi citrus trees and factors affecting on it.....	79
III.1. Preadult stages (N1+N2).....	79
III.2. Adult females.....	79
III.3. Adult males.....	80
III.4. Total population.....	80
III.11. Monthly variation rate (M.V.R.) in <i>Aonidiella aurantii</i> Population abundance.....	81

IV. Chemical control of the scale insects infested citrus	
Trees in Qalubiyah Governorate.....	84
IV.1. Efficiency of the insecticides against Purple scale insect.	
<i>Cornuaspis beckii</i> (Newm).....	84
IV.1.a. First experiment (one insecticidal application on April, 1994).....	84
IV.1.b. Second experiment (one insecticidal application on April, 1994).....	88
IV.1.c. Third experiment (one insecticidal application on March, 1995).....	92
IV.1.d. Fourth experiment (one insecticidal application on May, 1995).....	96
IV.1.e. Fifth experiment (two insecticidal application on June and August, 1996).....	101
IV.1.f. Sixth experiment (two insecticidal application on June and July, 1996).....	106
IV.2. Efficiency of the insecticides against Date-palm scale insect.	
<i>Parlatoria blanchardii</i> (Targ.).....	111
IV.2.a. First experiment (one insecticidal application on April, 1995).....	111
IV.2.b. Second experiment (one insecticidal application on May 1995).....	115
IV.2.c. Third experiment (one insecticidal application on May, 1996).....	119
IV.2.d. Fourth experiment (one insecticidal application on July, 1996).....	122
IV.3. Efficiency of the insecticides against California red scale	
Insect <i>Aonidiella aurantii</i> (Maskell).....	126
IV.3.a. First experiment (one insecticidal application on March, 1995).....	126
IV.3.b. Second experiment (one insecticidal application on April, 1995).....	130
IV.3.c. Third experiment (one insecticidal application on April 1996).....	134
IV.3.d. Fourth experiment (one insecticidal application on June, 1996).....	137

IV.4.Efficiency of the insecticides against citrus wax scale insect.	
<i>Ceroplastes floridensis</i> (Comestock).....	141
IV.4.a.First experiment (one insecticidal application on June. 1995).....	141
IV.4.b.Second experiment (one insecticidal application on May.	
1996).....	141
IV.5.Fruit count trial	146
SUMMARY.....	149
CONCLUSION.....	153
