INTRODUCTION.....	1
REVIEW of LITERATURES.....	3
I-Laboratory Studies.....	3
1-Toxicological effects of chemical compounds on bollworms	3
1-1-Eggs stage of cotton bollworms	3
1-2- Larval stage of cotton bollworms	8
1-3- Adult stage of cotton bollworms.....	14
2- Latent effect of some chemical compounds on some biological aspects of cotton bollworms after treated against	17
2-1- Egg stage of cotton bollworms.....	17
2-2- Larval stage of cotton bollworms	19
2-3-Adult stage of cotton bollworms	22
II-Field studies.....	2
1- Effect of different spray volumes and different recommended chemical compounds against pink bollworm on cotton.....	24
2- Effect of spray application of some insect growth regulators on pink bollworm.....	32
MATERIALS AND METHODS.....	35
1- Chemical compound used	35
a- Pesticides used.....	35
b- Insect growth regulators (IGR's).....	36
2- Types of sprayers used.....	37
3-Rearing technique.....	39

4- Experiments.....	41
4.A- Laboratory studies.....	41
4.A.1- Toxicity of some chemical compounds on pink and spiny bollworms.....	41
Toxicity on eggs.....	41
Toxicity on larvae	42
Toxicity of adults of pink and spiny bollworms.....	43
4.A.2- Latent effects of some compounds on some biological aspects of pink and spiny bollworms after treatment of.....	44
Eggs.....	44
Larvae.....	46
Adults.....	48
4.B-Field studies.....	48
1- The effect of various sprayer and different recommended compounds against pink bollworm.....	49
2- Effect of some insect growth regulators on pink bollworm.....	50
RESULTS AND DISCUSSION.....	53
1-Laboratory bioassay studies.....	53
1-Effect of tested insecticides on egg hatch, larval and adult mortality of bollworm	53
2-Toxicological effects of some chemical compounds against different stages of pink and spiny bollworms ...	61
2-1- Egg stage of.....	61
2-1-1- Pink bollworm.....	61
2-1-2- Spiny bollworm.....	67
2-2- Larval stage of.....	72

2-2-1- Pink bollworm.....	72
2-2-2-Spiny bollworm.....	75
2-3- Adult stage of	79
2-3-1-Pink bollworm.....	79
2-3-2- Spiny bollworm.....	82
3- Residual effects of tested compounds on some biological aspects of pink and spiny bollworms when treated	86
3-1- One- day old eggs treated with these compounds by using dipping technique.....	86
3-1-1-Pink bollworm.....	86
3-1-1-1-Larval stage.....	86
3-1-1-2-Pupal stage.....	88
3-1-1-3-Adult stage.....	90
3-1-2- Spiny bollworm.....	96
3-1-2-1- Larval stage.....	96
3-1-2-2-Pupal stage.....	98
3-1-2-3-Adult stage.....	100
3-2- Newly hatched larvae treated with tested compounds by using direct exposure technique.....	107
3-2-1-pink bollworm.....	107
3-2-1-1-Larval stage.....	107
3-2-1-2-Pupal stage.....	110
3-2-1-3-Adult stage.....	112
3-2-2- spiny bollworm.....	118
3-2-2-1- Larval stage.....	118
3-2-2-2-Pupal stage.....	120
3-2-2-3- Adult stage.....	121

3-3- Adult stage	130
3-3-1- Pink bollworm.....	130
3-3-2-Spiny bollworm.....	135
B- Field experiments.....	141
1- Effect of different sprayers and different	
recommended compounds against pink bollworm ...	141
During 2002 season	141
During 2003 season	145
2- Effect of some insect growth regulators on pink	
bollworm infestation	149
During 2002 season	149
During 2003 season	151
SUMMARY.....	154
