I INTRODUCTION.....	1
II REVIEW OF LITERATURE.....	4
I- Population studies.....	4
II- Efficiency of some pest control measures against pests of common bean plants and the parasitoid, <i>Diglyphus isaea</i>	13
III- Effect of various treatments on the yield.....	31
IV- Effect of certain compounds on some biological aspects of <i>Liriomyza trifolii</i> (Burgess).....	33
V- Effect of some chemical compounds on the reproduction of <i>Aphis craccivora</i> Koch.....	42
VI- Efficacy of <i>Diglyphus isaea</i> (Walker) in controlling the leafminer, <i>Liriomyza trifolii</i> (Burgess).....	48
III MATERIAL AND METHODS.....	56
IV RESULTS AND DISCUSSION.....	70
I- Population fluctuation.....	70
I.1- Nili plantation.....	70
I.1.A- The population abundance of broad bean leaf miner, <i>Liriomyza</i> <i>trifolii</i> (Burgess).....	70
I.1.B- The population abundance of legume aphid, <i>Aphis craccivora</i> Koch..	77
I.1.C.1- The population abundance of the whitefly, <i>Bemisia tabaci</i> (Genn.) during season 1999.....	83
I.1.C.2- The population of the whitefly, <i>Bemisia tabaci</i> (Genn.) during 2000 season.....	85
I.1.D- Population abundance of the parasitoid, <i>Diglyphus isaea</i> (Walker)	91
I.2- Summer plantation.....	95
I.2.A- The population abundance of legume aphid, <i>Aphis craccivora</i> Koch. during 2004 season.....	95
I.2.B- The population abundance of the whitefly, <i>Bemisia tabaci</i> (Genn.) during 2004 season.....	95
I.2.C- The population abundance of <i>Tetranychus urticae</i> Koch during 2004 season.....	100
II- Evaluation of certain treatments and their mixtures.....	121
II.1- Nili plantation.....	121
II.1.1- Efficiency of the tested compounds alone.....	121
II.1.1.A- The broad bean leaf miner, <i>Liriomyza trifolii</i> (Burg.).....	121
II.1.1.B- The legume aphid, <i>Aphis craccivora</i> Koch.....	130
II.1.1.C- The whitefly, <i>Bemisia tabaci</i> Genn.).....	138
II.1.1.D- Leaf miner parasitoid <i>Diglyphus isaea</i> (Walker).....	151

II. 1.2-	Effect of various Combinations.....	159
II.1.2.A-	The leaf miner, <i>Liriomyza trifolii</i> (Burg.).....	159
II.1.2.B-	The legume aphid, <i>Aphis craccivora</i> Koch.....	167
II.2.C-	The whitefly <i>Bemisia tabaci</i> (Genn.).....	175
II.1.2.D-	The parasitoid, <i>Diglyphus isaea</i> (Walker).....	189
II.2.E-	Effect of tested treatments on yield components.....	197
II.2-	Summer plantation.....	201
II.2.1-	Efficiency of the tested compounds alone.....	201
II. 2.1.A-	<i>A. craccivora</i> Koch.....	201
II. 2.1.B-	The whitefly, <i>Bemisia tabaci</i> (Genn.).....	203
II. 2.1.C-	The two-spotted spider mite, <i>Tetranychus urticae</i> Koch.....	207
II.2.2-	Effect of various combinations.....	217
II.2.2.A-	The legume aphid, <i>Aphis craccivora</i> Koch.....	217
II.2.2.B-	The whitefly <i>Bemisia tabaci</i> (Genn.).....	219
II.2.2.C-	The two-spotted spider mite, <i>Tetranychus urticae</i> Koch.....	232
II.2.2.D-	Effect of various treatments on some yield components during summer plantation.....	240
III-	Effect of tested compounds on some biological aspects of <i>Liriomyza trifolii</i> (Burg.).....	259
IV-	Effect of different treatments on fecundity of <i>Aphis craccivora</i> Koch.....	277
V-	The efficiency of the ecto-larval parasitoid, <i>Diglyphus isaea</i> (Walker) against <i>Liriomyza trifolii</i> (Burg.).....	284
V-	SUMMARY.....	292
VI-	REFERENCES.....	308
	ARABIC SUMMARY.....
