

CONTENTS

Subject	Page
INTRODUCTION.....	1
REVIEW OF LITERATURE.....	3
I-Toxicological effects of some chemical compounds on rodents	3
II- Biological effects of some chemical compounds.....	8
III-Teratogenic studied of some chemicals.....	15
IV-Biochemical Effects of the Anticoagulant Rodenticides.....	18
IV-1-Effects on Enzymatic Systems.....	18
Glutamic Oxaloacetic Transaminase (GOT) and Glutamic Pyruvic Transaminase (GPT) activities.....	18
IV-2- Effects on Total Protein.....	23
IV-3- Effects of Cholesterol.....	25
IV-4- Effects on bleeding time.....	26
MATERIALS AND METHODS.....	29
Experimental design	29
1- Anticoagulants used.....	29
1-a-Warfarin.....	29
1-b-Chlorophacinone.....	30
1-c -Brodifacoum.....	31
2- Tested animals.....	31
3-Parameters evaluated.....	32
3-A-Determination of various lethal values (LD_{30} , LD_{50} and LD_{90})	32
3-B-Teratogenic effect of the three anticoagulants.....	32
3-C-Biological effect of the three anticoagulants.....	33
