<b>INTRODUCTION.....</b>	<b>1</b>
<b>REVIEW OF LITERATURE .....</b>	<b>3</b>
I- Effect of low temperature as a pre-sowing treatment on germination.....	3
II- Effect of low temperature as a pre-sowing treatment on growth behaviour...	4
III- Effect of low temperature as a pre-sowing treatment on photosynthetic pigments.....	7
IV-Effect of low temperature as a pre-sowing treatment on some chemical composition of squash leaves.....	9
1- Mineral contents.....	9
2- Some bioconstituents.....	10
<b>V- Reproductive growth.....</b>	<b>13</b>
1- Effect of low temperature as a pre-sowing treatment on flowering.....	13
2- Effect of low temperature as a pre-sowing treatment on early and total fruit yield.....	15
<b>VI- Fruit quality.....</b>	<b>16</b>
1-Effect of low temperature as a pre-sowing treatment on fruit characteristics.....	
2- Effect of the low temperature as a pre-sowing treatment on chemical constituents of fruits.....	
<b>MATERIAL AND METHODS .....</b>	<b>20</b>
<b>RESULTS AND DISCUSSION .....</b>	<b>32</b>
I- Low temperature and germination of squash seeds.....	32
II- Effect of the low temperature as a pre-sowing treatment on squash growth.....	36
1- Root growth.....	36
2- Stem growth characters.....	39
3- Leaf growth characters.....	40
4- Dry matter distribution.....	42
5- Effect of low temperature as a pre-sowing treatment on the photosynthetic pigments.....	50
III- Effect of low temperature as a pre-sowing treatments on some mineral contents and some bio-constituents of squash leaves.....	53
1- Mineral contents.....	53
2- Some bioconstituents.....	53
3- Nitrate reductase activity and nitrate-nitrogen content.....	60

IV- Squash productivity.....	60
1- Effect of low temperature as a pre-sowing treatments on flowering.....	60
2- Effect of the low temperature as a pre-sowing treatments on early fruit yield .....	64
3- Effect of the low temperature as a pre-sowing treatments on fruit yield of squash plants.....	67
4- Effect of the low temperature as a pre-sowing treatments on the biological and economical yields of squash plants.....	69
V- Fruit quality.....	74
1- Effect of the low temperature as a pre-sowing seeds treatment on fruit characters.....	74
2- Effect of the low temperature as a pre-sowing seeds treatment on minerals and total carbohydrates in fruits of squash plants.....	77
3- Effect of the low temperature as a pre-sowing seeds treatment on sugars, nitrate reductase activity (NRA) and nitrate nitrogen.....	79
4- Effect of the low temperature as a pre-sowing seeds treatment on vitamin C, total soluble solids and titratable acidity contents.....	81
SUMMARY AND CONCLUSION.....	84
REFERENCES .....	89
ARABIC SUMMARY .....	-
