	Page
1. INTRODUCTION	1
11. REVIEW OF LITERATURE.....	4
2.1.Effect of juvenile hormone on eggs hatchability	4
2.2-Effect of insect growth inhibitors on eggs hatchability	11
2.3- Latent effect of juvenile hormone on insect eggs	24
2.4- Latent effect of insect growth regulators on insect eggs	26
2.5-Effect of juvenile hormone on embryonic development of insect eggs	29
2.6-Effect of insect growth regulators on embryonic development in insects eggs.....	39
111. MATERIALS AND METHODS.....	42
3.1- Insect rearing technique	42
3.1.1-The cotton leafworm, <i>Spodoptera littorals</i> (Boisd).....	42
3.1.2-The greasy cutworm, <i>Agrotis ipsilon</i> (Hufn).....	43
3.1.3-The European corn borer, <i>Ostrinia nubilalis</i> (Hub.)	44
3.2-Tested compounds.....	44

3.2.1-Juvenile hormone analogues.....	44
a -Pyriproxyfenb.....	44
b -Tebufenozidec.....	45
c- Fenoxycarb	45
3.2.2-Insect growth inhibitors	46
a –Flufenoxuron	46
b –Hexaflumuron	46
c –Lufenuron	47
d –Diflubenzuron	47
e -Chlorfluazuron	47
3.3-Egg treatments.....	48
3.3.1-Hatchability and susceptibility of developmental age.....	48
3.3.2 Latent effect of IGRs on the successive stages resulted from treated different ages of eggs.....	50
3.3.3.Effect of some growth regulators on development of the cotton leaf worm egg.....	51
3.3.4-Effect of insect growth regulators on the reproduction potential of <i>S. littoralis</i> ...	52
1V. RESULTS AND DISCUSSION.....	53
4.1-Effect of some insect growth regulators on the hatchability of different ages of eggs.....	53

4.1.1-Effect of some insect growth regulators on the hatchability of <i>O. nubilalis</i> eggs.....	53
4.1.2-Effect of some insect growth regulators on the hatchability of <i>A. ipsilon</i> eggs.....	58
4.1.3-Effect of some insect growth regulators on the hatchability of <i>S. littoralis</i> eggs.....	62
4.2-Relative susceptibility of different egg ages of <i>Ostrinia nubilalis</i> , <i>Agrotis ipsilon</i> and <i>Spodoptera littoralis</i> to some insecticidal groups.....	68
4.2.1- <i>O. nubilalis</i>	68
4.2.2- <i>A. ipsilon</i>	78
4.2.3- <i>S. littoralis</i>	87
4.3- Latent effect of IGRs at the rate of LC50 values on different egg ages of <i>O. nubilalis</i> , <i>A. ipsilon</i> and <i>S. littoralis</i>	98
4.3.1- Latent effect of IGRs on different eggs of <i>O. nubilalis</i>	98
a- One day old eggs	98
b- Two day old eggs.....	101
c- Three day old eggs	105
4.3.2- Effect of IGRs on different ages of <i>A. ipsilon</i> eggs	108
a- One day old eggs	108
b- Two day old eggs.....	108

c- Three day old eggs	112
4.3.3- Effect of IGRs on different ages of <i>S. littoralis</i> eggs.....	115
a- One day old eggs	115
b- Two day old eggs.....	118
c- Three day old eggs	121
4.4-Effect of insect growth regulators on the reproductive potential of <i>S. littoralis</i>	126
4.5-Effect of some insect growth regulators on the embryonic development of the cotton leaf worm egg	130
4.6- The embryonic development of the cotton leafworm <i>Spodoptera littoralis</i>	135
4.6.1-External description of the egg of the cotton leafworm <i>S. littoralis</i>	135
4.6.2-External description of the egg of the greasy cutworm <i>Agrotis ipsilon</i>	136
4.6.3-Internal description of the egg of the cotton leafworm <i>Spodoptera littoralis</i>	136
4.6.4-Bioactivity of some insect growth regulators on the embryonic development of the egg	151
V. SUMMARY	155
V1. REFERENCES	164
ARABIC SUMMARY	-

LIST OF TAPLES

No.	Title	Page
1	Corrected mortality percentages for <i>O. nubilalis</i> eggs treated with IGI and IGRs.....	56
	Continue Corrected mortality percentages for <i>O. nubilalis</i> eggs treated with I.G.Is. and I.G.Rs....	57
2	Corrected mortality percentages for <i>A.ipsilon</i> eggs treated with IGIs. and IGRs.....	60
	Continue Corrected mortality percentages for <i>A. ipsilon</i> eggs treated with IGIs and IGRs.....	61
3	Corrected mortality percentages for <i>S. Littoralis</i> eggs treated with IGIs and IGRs.....	65
	Continue Corrected mortality percentages for <i>S. littoralis</i> eggs treated with IGIs.and IGRs.....	66
4	Susceptibility of one day old eggs of <i>O. nubilalis</i> treated by dipping technique with IGRs and IGIs.....	70
5	Susceptibility of two day old eggs of <i>O. nubilalis</i> by dipping technique with IGRs and IGIs.....	71
6	Susceptibility of three days old eggs of <i>O.nubilalis</i> treated by dipping technique with IGRs and IGIs.....	72

No.	Title	Page
7	Susceptibility of one day old eggs of <i>A. ipsilon</i> treated by dipping technique with IGRs and IGIs.....	79
8	Susceptibility of tow day old eggs of <i>A. ipsilon</i> treated by dipping technique with IGRs and IGIs.....	80
9	Susceptibility of three days old eggs of <i>A. ipsilon</i> treated by dipping technique with IGRs and IGIs.....	81
10	Susceptibility of one day old eggs of <i>S. littoralis</i> treated by dipping technique with IGRs and IGIs.....	89
11	Susceptibility of tow day old eggs of <i>S. littoralis</i> treated by dipping technique with IGRs and IGIs.	90
12	Susceptibility of three day old eggs of <i>S. littoralis</i> treated by dipping technique with IGRs and IGIs.....	91
13	Latent effect of IGRs at the rate LC50 values on one day old egg of <i>Ostrinia nubilalis</i>	99
14	Latent effect of IGRs at the rate LC50 values on two days old eggs of <i>Ostrinia nubilalis</i>	103
15	Latent effect of IGRs at the rate LC50 values on three days old eggs of <i>Ostrinia nubilalis</i>	106

No.	Title	Page
16	Latent effect of IGRs at the rate LC50 values on two days old eggs of <i>Agrotis ipsilon</i>	110
17	Latent effect of IGRs at the rate LC50 values on two days old eggs of <i>Agrotis ipsilon</i>	113
18	Latent effect of IGRs at the rate LC50 values on one day old egg of <i>Spodoptera littoralis</i>	116
19	Latent effect of IGRs at the rate LC50 values on two days old egg of <i>Spodoptera littoralis</i>	119
20	Latent effect of IGRs at the rate LC50 values on three days old egg of <i>Spodoptera littoralis</i>	123
21	Effect of insect growth regulators on the reproductive potential of <i>S. littoralis</i>	127
22	Corrected mortality of the treated eggs of the cotton leaf worm, <i>Spodoptera littoralis</i>	131
